Debris Collection Update

November 19, 2018

4:30 pm

Carteret County, NC – Carteret County anticipates that the first pass of debris pick up on non-state maintained roadways will be completed by Wednesday, November 21, 2018. Citizens living on non-state maintained roadways in the unincorporated areas should have all debris out on the right-of-way no later than Saturday, December 1, 2018 in order to have debris collected during the second pass.

NCDOT received additional collection trucks last week which should increase the rate of collection of debris on state system roadways.

Carteret County would like to assure citizens it is monitoring debris pickup contracts and noting where additional debris collection may be needed. Please be patient during the collection process as these crews are working diligently to clear the right-of-ways.

For more information on hurricane debris pickup, please contact the Carteret County Public Works Department at 252-648-7878.
