<h3>Observations / Recommendations</h3> <ul style="list-style-type: none"> The existing jail was opened in 1995 and is rated for 116 inmates. Currently the Average Daily population is typically over 140. A jail facility is considered operationally overcrowded when it reaches 80% of its rated capacity (93 inmates). The 116 beds consist of 64 single male cells, a 38 bed minimum custody male dormitory, and 10 female cells. There are 4 holding cells in the intake / booking area. Female housing as a percent of total population has been rising in NC as in other states – we recommend at least 20% of beds be allocated for female use. The study recommends a need for 305 total beds with "core" spaces sized for 400 for future expansion needs. Option 1 – Construct a new jail "core" and approximately 172 new beds adjacent to the existing facility. Renovate the interior of the existing jail and sheriff's offices to update and integrate electronics and expand the Magistrate's and Sheriff's office space. This will net a total of 286 beds and be difficult to expand on site. Option 2a – Construct a new 315 bed replacement Jail Facility on a remote site with "core" spaces for 400. The existing jail beds could serve as court holding area. This option would allow for future expansion and/or replacement Sheriff's offices. Option 2b – Construct a new 203 bed Jail Facility on a remote site with "core" spaces for 400. Design for easy housing expansion and maintain existing jail facility as-is. <p>MOSELEYARCHITECTS</p>	<h3>Site Plan – Existing Site Option 1</h3>  <p>MOSELEYARCHITECTS</p>

Option 1 Existing Site Option Observations

- Allows the Jail to remain in its historic location and connection to the Courthouse.
- Has the smallest capital cost of the two options (\$27.4m).
- Keeps the Sheriff and Magistrate at current location and proximity to the Jail function.
- Creates a more severe lack of available parking.
- Can't be easily expanded in the future – only nets 286 beds of an anticipated 300-400+ need.
- Sheriff's offices will still be lacking in needed space and storage.
- Court expansion will be made more difficult.
- Inability for an inmate containment yard.
- Core jail areas are located underneath inmate housing pods – more likely to attempt flooding of cells.
- Elevators and stairs create less staff efficiency of operation.
- Requires more staff per inmate for safe operations = higher staff cost per year.
- Existing Jail space will require more maintenance to keep operational as systems wear out.

MOSELEYARCHITECTS

Options 2a & b Observations

- Has enough property (15+ acres needed) for future expansions and additional functions (Sheriff's Offices, etc.).
- Single level of operation is the safest and most staff efficient layout. More staff able to safely supervise more inmates at a time.
- Allows existing parking to remain at Court site and potentially easier court needs expansion area.
- An inmate containment yard to keep the public away from the housing walls and recreation yards is provided.
- Has the largest initial capital cost of the options (\$34 - \$40m).
- New property may have to be purchased by the County – may create a HMBY issue.
- Requires the Magistrate to relocate to the new location and inmates must be transported to and from court.

Mr. Mace responded to questions from Commissioners about his recommendation of Option 2a or 2b for Carteret County – and clarified that Option 1 would require about 10-11 additional staff members.

Commissioner Robinson commented that Option 2b, as outlined, is still going to require running the existing jail and asked if Mr. Mace had considered the cost to the staff as a result. Mr. Mace responded that the replacement jail could be operated at much less staff cost annually. Mr. Mace shared that Option 2a would accommodate the County's entire needs for a 15-20-year projection. Commissioner Mansfield shared that if we are going to add people, regardless of where they are added, it is going to take a certain amount per prisoner to staff the facility – whether it is the old jail or a new jail. Mr. Mace stated that his recommendation for the County to consider is Option 2a as the best course of action. Commissioner Comer wanted to clarify that the information provided earlier regarding going offsite did include the people it would take to run functions at the Courthouse. Mr. Mace stated that Option 1 requires about ten to eleven more staff annually to operate than Option 2a.

Commissioner Wheatly asked if Mr. Mace was recommending Option 2b; Mr. Mace stated that he was recommending Option 2a.

Commissioner Farrington confirmed that 'current location' means expanding the jail where it is and regardless of the renovations to the old jail, it will take more people to manage that current location.

Mr. Paylor responded to questions from Commissioners regarding retirement benefits to teachers who are hired currently. Mr. Paylor clarified that current hires will not be eligible for health benefits upon retirement, a directive that comes from State Legislation.

Commissioner Farrington inquired about the distribution of the Supplies and Materials line item monies within the School's budget; Ms. Kathy Carswell, the School's Finance Officer, explained that the money is distributed according to the school's Average Daily Membership ("ADM"). Commissioner Comer asked what it is supplemented for this expense at the local level; Ms. Carswell shared that we provide approximately \$300K.

Commissioner Comer asked about losing some teachers: was it the result of less ADM. Mr. Paylor shared that last year, with the drop of ADM, we lost \$300K and \$300K this year; we lost six or seven teaching positions as a result of that ADM drop. Ms. Carswell explained that there was a loss of three teachers in the first year, then three teachers in the second year, and a loss of 150 students after Hurricane Florence. Commissioner Farrington asked how many students they had gotten back; Ms. Carswell replied that they had probably gained back approximately 50 of those students.

Commissioner Wheatly asked Mr. Paylor why they were losing two special education teachers; Mr. Paylor stated that it was due to a decrease in Federal funding and Ms. Carswell elaborated that it was also due to a loss in their ADM numbers.

Mr. Paylor provided an update on the MaST Program; they started the year with 100 students and are at 92 now due to some going other places. Mr. Paylor stated the State is supposed to fund them with \$200,000 in the pending budget. Mr. Paylor shared that they have created a new application process that is going to emphasize more of the trades, with a goal of getting 75% trades and 25% other. Commissioner Wheatly asked if there was any penalty from any of the agencies for having less than 100 students in enrollment. Mr. Paylor stated there has to be 100 students in attendance in order for the principal to be funded. Mr. Paylor shared that they were waiting to hear from the State Finance Department on whether the ADM needed to be 100 on December 31st or at the end of the school year.

Mr. Paylor shared with Commissioners that due to good local funding, they have had good teacher/student ratios for years. Commissioner Comer stated that historically, Carteret County has been in the top ten or better in funding for ADM; are we still doing well. Ms. Carswell confirmed that we are still doing well, and shared that the last time she checked, we were twelfth.

Chairman Smith thanked Mr. Paylor for his presentation.

<h2 style="text-align: center;">An Elementary Teacher’s Perspective</h2> <p style="text-align: center;">Wesley Pearson, Bogue Sound Elementary School</p>  	<h2 style="text-align: center;">Parent Involvement</h2>  

A Middle School Perspective

Christy Propst, Assistant Principal Morehead City Middle School:

"Physical Education & Health teachers have embraced the role of educating students on total health and wellness. They have long been actively engaging students in physical health aspects, but now it is evident in the health classroom that students are becoming more in tune with what it means to be mentally and emotionally healthy. Students have been engaged in the classroom lessons. I have witnessed students defining self image and ways to increase self image through goal setting. The teachers have embraced the opportunity to 'coach' students on becoming the best version of themselves."

A Counselor's Perspective on the Parent Program

Stacey Brake, Beaufort Elementary Counselor:

"Using the Botvin LifeSkills Training program for parents has been a delightful opportunity to connect with our parents in a new, intimate way. Many of our meetings evolve into group counseling sessions. Parents share personal anecdotes about their children's struggles with anxiety, concerns about transitioning to middle school, and some of their own struggles as parents. These parent sessions have provided a safe space for parents to connect, support, and encourage each other. The feedback from parents who attend has been positive. Parents who have not yet attended one of our monthly sessions have shared with me that they are hearing great things about the program in the community and want to attend future sessions."

A High School Perspective

Beverly Jones, East Carteret High School Counselor:

"The LifeSkills program provides high school students with the opportunity to review social skills taught at an earlier age. Students are very engaged and enjoy learning about finances, communication skills, and time management. Investing in our youth is never a mistake. Thank you for your support of our students"

Questions?

Dr. Kreuser anticipated the results of her student pride surveys. She shared that she recently learned that questions about vaping would be added to the survey; vaping appears to be the drug of choice, and it is very difficult to determine if someone is vaping. Commissioner Wheatly confirmed that initially, vaping was intended to reduce cigarette smoking, but has now become more of a problem than cigarettes.

Commissioner Cavanaugh asked about the results of the pride survey at other schools; when did they start to see a statistical decrease in reporting substance abuse. Dr. Kreuser responded that she is not aware of any other district that uses the pride survey. Craven County may, but she does not feel that Craven has implemented such a strong program as Botvin LifeSkills. Dr. Kreuser shared that she is told by DPI (Department of Public

Instruction), that we are the frontrunners in this; we are doing a lot of things really well; others are watching us.

Dr. Kreuser thanked the Commissioners for their support of the students. Dr. Kreuser discussed some budgetary adjustments for next year, sharing that she anticipates costs to be about the same as last year. Commissioner Comer asked if the workbooks were included in the budget. Commissioner Mansfield shared that the County funds that portion of the program separately.

Commissioner Wheatly commented that Dr. Kreuser had shared that vaping seems to be the number one drug of choice now, and asked what she thought the number two would be; Dr. Kreuser shared that she would guess it to be alcohol.

Commissioner Cavanaugh complimented the program and Dr. Kreuser; can't think of a better program to incorporate into the school system. He shared that he eagerly anticipates the results of the survey and the statistical analysis.

Commissioner Comer commented that this program came out of Carteret **Cares**, and the whole goal was to start young. He asked that school administrators remain aware of things around them that could improve the program and anything Commissioners could do to help, would be money well spent.

Commissioner Mansfield asked what would be the additional cost to add the parental piece in all of the schools. Dr. Kreuser shared that it would not be much, possibly around \$300 per school; it may also be that all the schools can use the same materials we are already invested in, but use it at different times.

Chairman Smith thanked the School Board and the administrative staff for coming out and sharing information.

Ms. Meshaw called attention to the Environmental Protection budget and explained that there was a significant change in this budgeted line item due to hurricane debris. Commissioner Comer asked about the hold up on State monies release for Hurricane Florence reimbursement. Ms. Meshaw shared that she did not know if it was inefficiencies or cash flow management.

Commissioner Comer inquired about Human Services, if you don't spend the money, you don't get the money; did they not spend that money because no one qualified for that money? Ms. Meshaw stated that they are so heavily regulated, it depends on who qualifies; the State also has oversight. While the State does not fund much on Social Services, they get to make decisions on the various programs for the 100 Counties. Commissioner Comer asked if the reason we are leaving those monies on the table is the result of not having sufficient County staff. Ms. Meshaw shared that she will get with Ms. Cindy Holman, Consolidated Human Services Director, and share information with Commissioners.

Commissioner Mansfield referenced a letter to the editor in the paper this week; the estimated expenditure on public schools is going to be over a million dollars more than we spent last year. We are trying our best to get the money out there; there is some misinformation somewhere.

Commissioner Comer asked that Ms. Meshaw provide a review of the Debt set-off account.

GENERAL DISCUSSION/POSSIBLE SALES TAX REFERENDUM

County Manager Tommy Burns discussed Sales Tax and Article 46, the local option for a quarter-cent sales tax. In the last Legislative session, House Bill 667 was introduced that would allow Counties to spell out specifically on the ballot question what the funds are going to be designated for. That Bill passed in the House and failed in the Senate. Commissioner Comer asked if it failed or was it held in Committee. Mr. Burns clarified that they called it Serial Deferral, but basically the same thing.

Mr. Burns shared that there was some substitute language that was inserted into House Bill 681 and that Bill did not pass either. The options are to put the same generic ballot question on the ballot that we have in years past- quarter-cent local option sales tax, for or against; that is all you can say. Mr. Burns stated that the question is whether the County puts another option on the ballot and if so, how do we market to the public on how those funds are going to be used. We can’t advocate for the Sales Tax Referendum – we can only say if it passes, these are some of the ways in which we may use those funds. Mr. Burns shared that in another County he worked in, it took five times for it to pass, and it passed that time because they had gotten civic groups and parents and so forth involved.

Commissioner Comer stated that the last time we attempted this, we were estimating about \$2.4 or \$2.5 million dollars per quarter cent sales tax – have you got a number on what a quarter-cent would be today? Mr. Burns replied that he thought it would be about \$3.6 or \$3.7 million, based on projections from the sales tax over the last couple of years.

Commissioner Comer wanted to share his perspective. He explained that the idea of the previous quarter-cent sales tax, was to put that money aside for waterways management. Commissioner Comer shared that the County has been managing it out of the General Fund and have been able to match through the State 2:1. Commissioner Comer shared that these are worthwhile projects to maintain. Commissioner Comer shared that we have tried it twice, and he thinks on the second time, we lost 54 to 46 or something similar in getting the referendum passed. Commissioner Comer shared that by Statute, we cannot specifically state how the money will be used. Commissioner Comer shared that with the possibility of raising \$3.6 million, a proposal he has thought of is to tie a school-share and a waterway-share into this quarter-cent. If we had a 50/50 share on the quarter-cent; meaning the first year, if we raise \$3.6 million; \$1.8 million would go into waterway management and \$1.8 million would go into the schools. He does not feel that the money should be things that could fluctuate, but does not lock you in – such as facilities, capital improvements. At the same time, \$1.8 million on the waterway side, he would suggest putting a cap on that because he thinks that number could get to a point that it does not make sense to keep sitting there. Commissioner Comer stated that he is talking off the cuff, but maybe cap it at \$8 million; at \$3.6 million in five years, it would be about touching on the cap. As soon as you hit that cap, basically all that money will be sliding over to the school side. If we had some big geological event or weather event that causes problems in the waterways, we could take a couple of years and build the fund back up and then slide back over to the schools. Commissioner Comer shared that by getting the schools involved, they can advocate where we cannot. Long story short, by raising that kind of money another benefit would be there was a study done years ago, more than 50% of that quarter-cent came from people out of County; they are coming down here using our waterways and all the resources in the County. They would share in that expense; essentially the people in the County would only be coming up with about 50% or less of that quarter-cent sales tax. Commissioner Comer stated some of the public trust waterways or right-of-ways have a lot of private creeks that could also use some help. Commissioner Comer stated that he would like to see it go back to a vote in the fall. County Manager Tommy Burns shared that if Commissioners did that, you could put that allocation language within the body of the Resolution.

Commissioner Robinson added that the needs will not be going away; any amount of money we can get would be helpful. Commissioner Robinson shared that we are relying now on State and Federal funding, and we have no guarantee that the funding will stay there; the demand will be more and more on the local level. Commissioner Robinson agreed that it is something that we should look into.

Commissioner Wheatly agreed with the need to maintain our waterways, and reiterated that with the sales tax referendum, everybody that visits the County pays it. He stated that he also thought a potential cap would make sense.

Commissioner Farrington stated that he agrees and stated that the school costs are not going away; with the upcoming Legislative mandates, he does not see those costs going away. He discussed the increasing costs of sending a child to school here due to factors beyond their control. Commissioner Farrington shared that everybody he has talked to is thrilled about the work done on behalf of the County's waterways.

Commissioner Cavanaugh commented that you would have more widespread support of the sales tax increase if you included the schools on the receiving end of the revenues.

Commissioner Comer asked that the County Manager develop an official timeline; he stated that he would like to involve the schools before the Commissioners come to an official consensus.

DEPARTMENTAL STRATEGIC PLANS

County Manager Tommy Burns described the process of creating the Strategic Plans and noted that it encourages Department Heads to plan for the future. He mentioned that it should also provide some insight into the budgeting process for each department. Mr. Burns stated that some of the departmental Strategic Plan presentations will be during upcoming Board Meetings; they will not all be presented today.

Consolidated Human Services – Cindy Holman

Ms. Holman thanked Commissioners for the opportunity; her department has placed a lot of emphasis on their strategic plan and have been keeping the plan updated.

Ms. Holman shared information as shown within the plan and reviewed the total number of employees within the Consolidated Human Services Department. Ms. Holman shared that the plan forecasts what will happen, but so much depends on Legislation and policies and procedures that are sent down from the State.

Ms. Holman shared that their biggest concern at this point is turnover and provided an overview of the turnover within Consolidated Human Services.

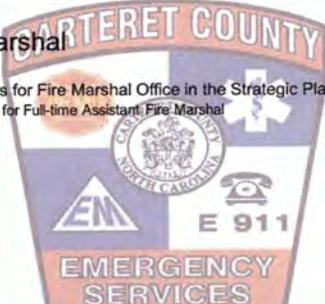

Ms. Holman answered questions from the Commissioners regarding applying for more grant money, and described some future projects for which she foresees needing funding. Ms. Holman shared that she would like to see more positions within her department. Commissioner Comer asked if Ms. Holman could bring more money to the County if she had more steady help. She said she believed that we could. Commissioner Mansfield asked how many vacant positions they had at DSS; Ms. Holman believed it was around

a total of ten. Commissioner Wheatly complimented Ms. Holman on the job she does for the County.

Emergency Services – Stephen Rea

Mr. Rea described the four different divisions within his department and discussed the projected needs for each of these divisions as shown in the presentation below.

Mr. Rea discussed a few of the logistical challenges during hurricane response as it related to the facility. He discussed the limited space for the EOC staff and the challenges of sharing office space with a municipal police department. Mr. Rea shared that during the last two activations for hurricanes, the ceiling leaked and telecommunicators were covering their workstations with trash bags. During Hurricane Dorian, the air conditioner went out in the telecommunications center causing the temperature to stay above 80 degrees. The wind during Florence was so strong it caused issues for viewing screens around the room. Mr. Rea discussed the need for additional office space at the Emergency Services office in the Health Department building.

Commissioners did not have any questions.

Human Resources – Jaime Long

Ms. Jaime Long provided an overview of the Human Resources Strategic Plan, and shared information shown in the presentation below:

Ms. Long shared that the Human Resources Department is fully staffed; programs and initiatives are in place to decrease turnover. The recruiting process has been shortened and streamlined and the department is reaching out further than Carteret County to recruit

candidates. Employees everywhere, not just in Carteret County, are moving on faster and not staying in positions so it's important to stay competitive. Ms. Long shared in calendar year 2019, there was a 24% turnover. Commissioner Comer asked if this was a normal number. She stated that she would get back to the Commissioners about what turnover numbers were like elsewhere.

She shared that the department is working with Administrative staff to make competitive compensation plans and making sure they were in line with surrounding municipalities and Counties because they are losing staff to these agencies. Ms. Long described implementing a process to update job classifications annually, and to continue with employee recognition programs and professional development opportunities.

Chairman Smith inquired about exit interview data and expressed a desire to see results, doesn't need to see names, just the reasons for departure; Ms. Long will send information to Commissioners. Chairman Smith asked about the feasibility of doing a two- or three-year hiring contract with employees; Ms. Long stated that she would not recommend it.

Tax Department – Sarah Davis

Ms. Davis shared information on the Tax Department's Strategic Plan.

Ms. Davis highlighted the process of filing for delinquent taxes and shared that the department recently received upwards of 13,000 calls in two days, shutting the system down. She was able to work with the IT Department to re-route the phone lines to be able to handle a larger volume of calls.

Ms. Davis shared that the Tax Department would like to use the next few years to modernize the department to better serve the public.

Commissioner Wheatly asked what interest rate was associated with the vouchers that were sent for making payments. Ms. Davis explained there was no interest for vouchers that went out from August to January, and explained the interest charged for past due taxes.

Commissioner Cavanaugh asked about the age of the software they were using. Ms. Davis replied that it was implemented in 1999, and she is currently testing software and plans to have a recommendation in her upcoming budget.

Economic Development – Don Kirkman

Mr. Kirkman shared information shown within his five-year Strategic Plan for the Economic Development Department and highlighted information shown within his Executive Summary below.

Mr. Kirkman expressed that labor retention was a consistent challenge for employers and highlighted that they will continue to focus on attracting full-time residents, emphasize the

strength of our public schools, as well as raise awareness of Carteret County as a retirement County. Mr. Kirkman shared information regarding the partnership with WRAL Digital Solutions and shared some results of the program.

Mr. Kirkman shared that he is spending a lot of time preparing for I-42 (the transformation of Highway 70 to Interstate 42); it will unquestionably drive a lot of economic activity in Carteret County. Mr. Kirkman shared that it does not come without challenges like increased traffic congestion.

Mr. Kirkman provided information on the use of the Economic Development funds and suggested that we look at how to strengthen that fund to provide for continued County support and/or incentives.

Commissioner Cavanaugh asked about wage stagnation; asked if that figure has moved in the past year. Mr. Kirkman replied that it has, employers are having to raise wages and consider employees with varied backgrounds that they may not have considered in the past.

Commissioner Comer stated that they would like to continue on for several years with the WRAL campaign segments. He also mentioned that he would like Mr. Kirkman to reach out to the TDA to see if they can assist with funding.

Commissioner Wheatly asked about the timeline for I-42. Mr. Kirkman stated that they have already seen some effects from the Goldsboro bypass, and will continue to see effects with each segment that is completed. Improvements to I-17 will also bring more people to our area.

Economic Development Department 2020-2025 Strategic Plan Executive Summary

The Economic Development Department ("Department") supports the Board of Commissioners mission ("to enhance the future health, safety and quality of life in the County by ensuring the delivery of superior service to all residents through courteous customer service, provided in a *cost-effective* and compassionate manner"). The Department provides this support by: (i) expanding the County's tax base and growing tax revenues by generating additional capital investment; (ii) helping make the County more attractive to permanent residents, new investors, existing and new businesses, entrepreneurs, second home owners and visitors by effectively marketing the Crystal Coast as an attractive place to live, work and vacation and by supporting expanded infrastructure, workforce training, and quality of life enhancements; and (iii) working to decrease the demands on County-provided social services by incrementally increasing jobs, wages and income-producing opportunities for Carteret County citizens. The County's appropriation to the Department is an *investment* in economic growth—not an expense.

Over the next 5 years, the Department will prioritize 6 programmatic objectives in support of this goal:

1. *Leveraging Allies and Resources.* Department staff will work collaboratively with local, regional and state partners to support and grow the Carteret County economy.
2. *Existing Business Retention and Expansion.* Department staff will continue to call on and assist existing businesses. Workforce is consistently the number one challenge faced by existing businesses, and the Department will expand its engagement with workforce development partners.
3. *Advocacy.* Federal and state regulations and policies often have significant impacts on the Carteret County economy, and Department staff will continue to be an advocate on public policy issues.
4. *"People Attraction" Marketing.* The county's tight labor market and lack of building and sites for large employers, has caused the Carteret County Economic Development Foundation ("Foundation") to fund a campaign to market the Crystal Coast as a destination for full-time residents through a new partnership with WRAL Digital Solutions. Department staff will continue to coordinate this effort.
5. *Business and Capital Investment Attraction.* The Department will continue to provide assistance to (i) representatives of companies seeking to locate in Carteret County, (ii) entrepreneurs interested in opening new Carteret County enterprises, and (iii) developers/investors seeking information about capital investment opportunities in the county.
6. *Infrastructure Enhancements.* Power, water, sewer, gas, roads and broadband are all essential to economic growth. Department staff will continue to support county infrastructure expansion, and staff will continue to actively promote I-42 and work with local governments to prepare for its anticipated impacts, including staffing the Carteret County Transportation Committee and MSEP.

The Strategic Plan contains a SWOT analysis that specifically targets the new "people attraction" strategy. Key strengths are the county's quality of life and natural resources, best-in-state public schools, excellent healthcare system, and low (state's lowest) property taxes.

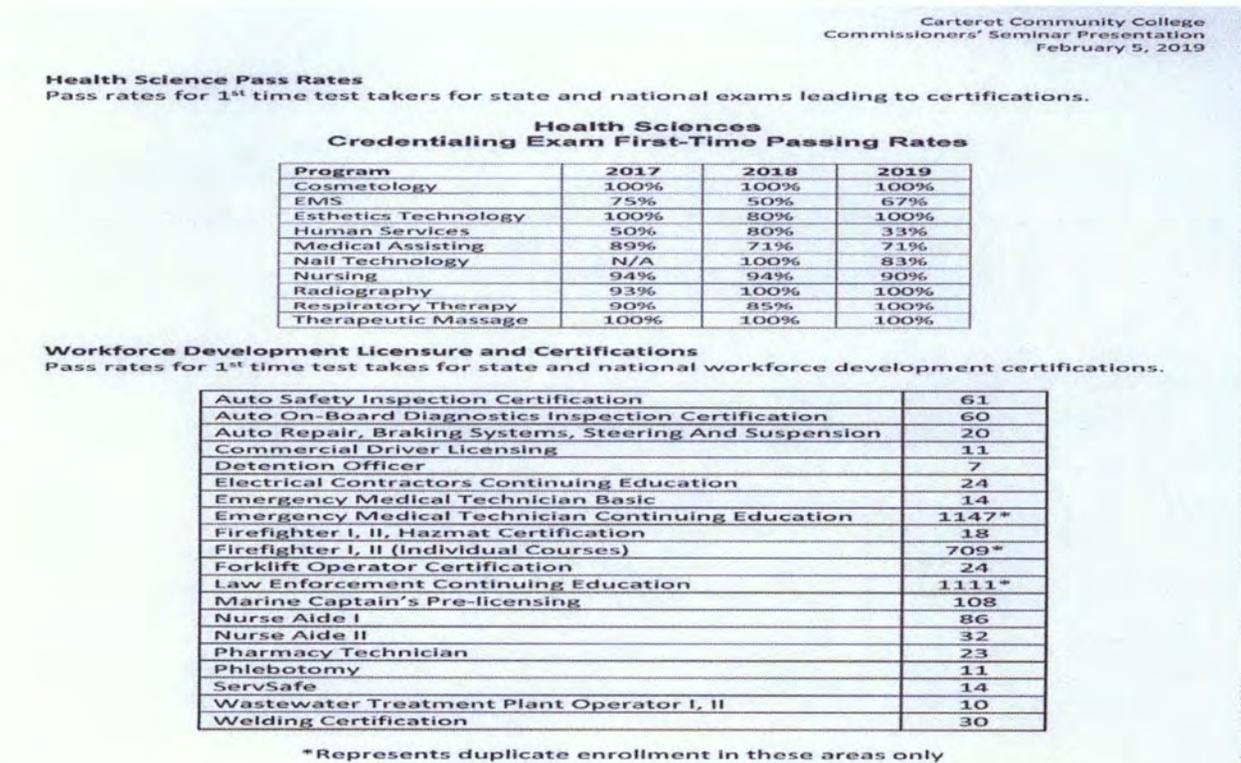

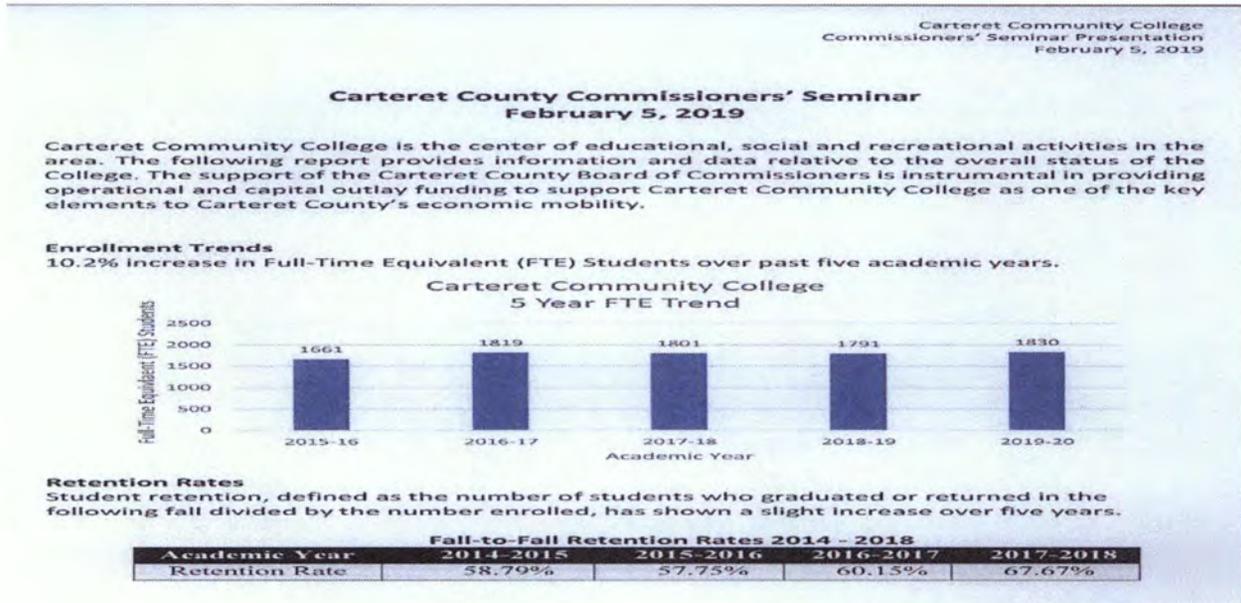

The addition of Michele Query as Administrative Officer has provided new opportunities and capabilities for the Department and the Foundation. Query's marketing expertise, particularly in digital and social media, has been invaluable to help promote Carteret County and the Crystal Coast as a residential destination, and she is undertaking training to develop skills that will enable her to assume additional Departmental responsibilities.

The Board of Commissioners should consider allocating additional funds to the Economic Development Reserve fund, which will likely be substantially depleted during the 2021 fiscal year.

STRATEGIC PLAN: Planning & Inspections – Gene Foxworth

Mr. Gene Foxworth provided Commissioners with an overview of his department's Strategic Plan. Mr. Foxworth shared how his office manages ordinances, the inspections process and the increase in numbers of inspections his office is performing. The past two hurricane seasons have contributed to that increase and he expects to continue to see the growth trend in the area.

Commissioner Comer asked if his software was helping to alleviate their workload. Mr. Foxworth confirmed that it was.

UPDATE/FACILITY PLANS – Gene Foxworth

Mr. Eugene Foxworth provided a presentation on Facility Plans as shown below, and discussed the various ongoing projects in County-maintained buildings.

Carteret County Government Proposed Projects For FY 20-21

In an effort to more efficiently plan for construction and space renovation the General Services Department has ventured to propose a list of project base on the needs of the County Departments. This list will grow and change as emerging needs become apparent. The list below is numbered for convenience not priority.

1. Replace Admin/Annex Windows

The General Services Department requests this project. The windows currently in place have been in the building since its original construction. With the last two hurricanes the multiple components of the windows themselves have failed causing damage to the sheetrock, carpet and other county contents.

• \$415,000

2. Update Admin/Annex 12 Public Restrooms

The General Services Department requests this project. The project will repair tile floors, walls, metal partitions and convert existing vanity fixtures to ADA compliant fixtures.

• \$95,000

3. New Records Storage Facility

The General Services Department requests this project. Construct a storage facility on county owned property to store documents and other materials from multiple departments. This is a rollover from last year. Continuing efforts to maximize habitable space.

• \$250,000

4. Repairs / Renovations at Various Parks

This project is requested by the Parks and Recreation Department. Fencing needs to be repaired and additions made at Swinson, Eastern and Western Parks due to age and use.

• \$85,000

5. Retrofit Health Department Roof

The Health Department requests this project. The Health Department roof has been repaired numerous times in multiple locations and is in need of a permanent repair due to the hurricanes and age. We would like to have the roof coated with a latex material that offers a 10 year warranty. This would be the most cost effective option at this time.

• \$185,000

6. Administration, Annex and Old Courthouse 2nd Floor Carpet Replacement

The General Services Department requests this project. The existing carpet is worn and does not provide good ascetics to the public and staff. This will be replaced with carpet squares as with the other portions of the Courthouse to allow for simple maintenance and repair.

• \$170,000

7. Replace TWO RTU HVAC Units at Health Department

The General Services Department requests this project. There are two HVAC roof top units that have met their useful life and need to be replaced.

• \$45,000

9. Repair Rear Exterior Metal Structure at Health Department

The Health Department requests this project. With concerns to safety, the steel overhang structure needs to be prepared, repaired, sealed and painted.

• \$15,000

10. Revamp Courthouse Landscaping

The General Services Department requests this project. Remove red brick around parameter of courthouse complex and islands. Replaced shrubbery with low maintenance vegetation. Replace sod for better ground cover.

• \$25,000

Memorandum

To: Carteret County Board of Commissioners (CBOC)
 From: Greg "rudl" Rudolph
 Date: February 17, 2020
 Re: **Salters Creek and The Straits Landing Channel Maintenance Dredging Events**
 - Proposal and Contract Award (2)
 - Budget Amendment (2)

The CBOC is respectfully requested to consider and approve two contract awards for the above referenced waterway dredging projects, and two accompanying budget amendments. In December the CBOC approved a series of documents pertaining to Salters Creek and The Straits Landing Channel, which are both located Down East and serviced by regional N.C. Wildlife Resources Commission (NCWRC) Boat Ramps that are very popular with our citizenry and to those abroad. Since then we have been awarded reimbursement grants stemming from the State's Shallow Draft Navigation Channel Dredging & Aquatic Weed Fund to provide 2/3 of the project's costs (NCDEQ Contracts #8104 and #8105), and the NCWRC has returned a fully executed Memorandum of Agreement enabling the NCWRC to provide the County the remaining 1/3 of the project's costs via federal funding this agency receives specifically for dredging purposes. We are essentially serving in a project administrator/manager capacity in terms of bid procurement, construction oversight, and payment for both projects. In return, all funding will ultimately be born from non-County sources.

BID ABSTRACT – THE STRAITS LANDING CHANNEL

Shore Protection Office • P.O. Box 4297 • Emerald Isle, North Carolina 28594
[www . protect the beach . com](http://www.protectthebeach.com)

Bid solicitations were posted on the County's website and five contractors were contacted directly by County staff regarding both projects (four of which were Carteret County-based). We also hosted a voluntary pre-bid meeting on January 24th - two weeks before the bid opening date of February 7th. Ultimately two bids per project were received via an informal contracting process for both channel dredging events, which were furnished by Brooks Dredging & Marine Construction, Inc. from Harker's Island, N.C. and Coastal Marine Structures from Powells Point, N.C. (see bid abstracts above).

Brooks Dredging is the low-bidder for both projects and the contract dollar amounts are well within budgets. Accordingly, for Salters Creek we can expect a \$65,067 State reimbursement and a \$32,533 reimbursement from NCWRC (\$97,600 total), and for The Straits Landing Channel we can expect a \$38,667 State reimbursement and a \$19,333 reimbursement from NCWRC (\$58,000 total). The attached **Budget Amendments** reflect these transactions and our ability to accept funding from these two entities. And obviously, the attached **PROPOSAL AND CONTRACT** documents also have to be approved/executed by the CBOC before we provide a Notice to Proceed to Brooks Dredging to begin these two dredging projects that will greatly benefit the County's fishing and boating communities. The NCWRC is permit holder for both projects that include an April 1st deadline for dredging and we anticipate both projects can be completed within the next month and a half.

I'll be glad to review the projects or answer any questions the CBOC may have either at your February 17th meeting or in the interim leading up to this date - please don't hesitate to call or email if needed in this latter regard.

Subject: Occupancy Tax Penalty Waiver

For your consideration, is a request to waive several occupancy tax late paying and late filing penalties. Bruce G. Lynch has requested that \$18.54 in penalties be waived; the property owner was unaware that the occupancy tax report was due by the 20th of the following month. Mr. Lynch has never requested a waiver and has always paid on time.

Kellie Chappell/Avalara MyLodgeTax is respectively requesting a waiver for two of her properties located at 107 W Bogue Drive Unit 2 in Atlantic Beach and 1006 W Ocean Drive in Emerald Isle for the months of May 2019 through October 2019. Kellie Chappell/Avalara MyLodgeTax was unaware that occupancy tax is to be reported on a monthly basis. For the property located at 107 W Bogue Drive Unit 2, Ms. Chappell/Avalara MyLodgeTax is requesting that \$211.87 in late paying and late filing penalties be waived. For the property located at 1006 W Ocean Drive, Ms. Chappell/Avalara MyLodgeTax is requesting \$78.07 in late paying and late filing penalties be waived. Ms. Chappell/Avalara MyLodgeTax has paid in full and now understands to report occupancy tax on a monthly basis.

Karen Cercone began renting her home at 102-A Asbury Avenue in July 2018 and was unaware that she had to collect and pay occupancy tax. Ms. Cercone has paid all her occupancy tax in full and is requesting to have \$130.60 in late paying and late filing penalties be waived from the months rented since July 2018. Under the provisions of N.C.G.S. 153-A-155 (e) and 105-237, the Board of Commissioners has discretion to waive penalties.

Subj: Request for County Reserve Funds to be released to the Marshallberg Fire Department

The Carteret County Fire and EMS Commission met on Tuesday January 28, 2020. A request was presented before the commission by Marshallberg Fire Chief Bryan Blake to purchase a used 1992 E-One pumper-tanker for the department.

This vehicle will replace a fire apparatus that is 36 years old and beyond economical repair. The cost of the vehicle plus fire hose and self-contained breathing equipment (SCBA) units is \$ 40,000.00

After discussion, commission member Frank Jarvis made the motion and a second was made by commission member Mike Lewis to approve the release of Marshallberg Fire Department County Reserve Funds in the amount of \$ 40,000.00 to purchase the 1992 E-One pumper-tanker, fire hose, and SCBA Units. The motion carried unanimously.

 Subject: fire and ems agenda

Marshallberg VFD is proposing the purchase of a used fire truck to replace Eng 5 as a first out pumper/tanker. This truck is a 1992 E-1 with 39,000 mi, Cummings diesel, Allison transmission. It is basically the same truck as our E-3. 1250 GPM pump 1,000 gal tank. Just passed pump test and ladder test. The truck was recommended to us by Jay Howell (VFIS). Reggie Lewis our Captain has experience with the truck through classes he taught while in Fayetteville. Their BOD wants \$30,000, there Chief said \$25,000 will get the truck. Reason for selling is they are getting a new truck that will arrive next week. In the used truck world this is a pretty good deal. We have been talking about the need to replace E-5 for a while now. This would be a good candidate. E-5 could remain as a back-up pumper, which is recommended by ISO. We do have room to house them all.

Their Board and our Board have agreed on the price of \$27,500.00.

We estimate we will need an additional \$11,000.00 for hose and appliances and \$2,000.00 for 4 re-manufactured air packs and PASS devices, for a total of \$40,000.00

We are asking that this amount be released and transferred from our county held reserves to our operation's account so we can finalize this transaction. Our Board of Directors minutes are attached.

Thanks,

Bryan Blake

Chief Marshallberg VFD

**Board Meeting
 December 19, 2019**

Meeting called to order at 8:18pm with John Day, Mark Hooper, Bryan Blake, Tom Waller and Margaret Riggs in attendance.

Discussion and presentation on a 1992 E-One tanker/pumper that Bryan Blake and Reggie Lewis went to look at in Carolina Trace. It has a 1000 gallon tank and pumps 1250 gallons per minute. The truck comes with ladders. The front seats are not in good shape. That is the only thing wrong with this truck. Reggie looked into the cost of having the seats replaced. He received one estimate of \$600 per seat BOTTOM to replace. He also got an estimate of \$469 from CC Interiors to recover BOTH seat bottoms.

Carolina Trace was asking \$30,000 for the truck. MVFD offered \$25,000. The departments came to an agreed price of \$27,500.

Mark Hooper made a motion to purchase the truck as well as have seat covers redone by CC Interiors, 2nd by Bryan Blake

Motion carried

There was a discussion on buying hose for new vehicle.

Tom Waller made a motion to buy the hose, 2nd by Mark Hooper

Motion carried

There was discussion on the rest of the equipment needed to get the new truck in service: Air packs for the truck (4) reconditioned @ \$400 per pack plus \$30 each for pass devices. Other equipment needed to outfit the truck will be purchased as needed

Mark Hooper made the motion to accept, 2nd by Bryan Blake, motion carried

Motion made at 8:50 to adjourn by Tom Waller 2nd by Margaret Riggs

V. PUBLIC COMMENT

Ms. Deborah Krusz, 400 Crow Hill Road, Beaufort: Ms. Krusz stated she was here to talk to Commissioners about a long-term facility for the drug problem in Carteret County. Ms. Krusz shared that it has become an epidemic; we are losing our young children, week to week. Ms. Krusz shared some statistics with Commissioners and noted that in 2015, we had 27 overdoses – 22 survived, 5 died. In 2016, we had 54 overdoses – 43 survived, 11 died. In 2017, we had 61 overdoses – 50 survived, 11 died. In 2018, we had 72 overdoses – 62 survived, 10 died. In 2019, we had 52 overdoses – 41 recovered and 11 died. She stated that she believed there were 66 incarcerated in our jail due to drugs. Short-term care is not working. What we have done so far, we are showing progress because numbers are coming down a little bit. The main thing now is we have 'bad' drugs – not alcohol or marijuana – drugs where one little piece will kill you. We are leaving it up to our deputies and rescues to save these children. Most of the children are young, and most are from lower-income families. We have got to come together as a County and work; we can set up a think tank. We have a facility now that has been sitting there for years that is not being used – behind the hospital; it was an old rest home facility. We can put these facilities to use for the people that have drug problems; let's give him some help. Their problem is deeper than a band-aid. They're back in the jail every week. Ms. Krusz believed if we could build a long-term facility it would help. Let's put these facilities to use for these children.

Chairman Smith thanked Ms. Krusz for sharing the information and asked if she had any information she could forward to the Clerk so that Commissioners could review it – along with her telephone number and email address.

VI. PUBLIC HEARING TO CONSIDER A REQUEST BY SALT CREEK HOLDINGS TO REZONE 63.40 ACRES LOCATED AT THE HIGHWAY 24 AND CAGLE ROAD INTERSECTION FROM R-20 (SINGLE-FAMILY RESIDENTIAL) TO R-15 (SINGLE-FAMILY RESIDENTIAL)

Mr. Gregg Hartman discussed the request by Salt Creek Holdings, LLC to rezone three properties totaling a 63.40-acre tract of land located at the Highway 24 and Cagle Road intersection in Newport from R-20 single family residential district to R-15 single family residential district; currently there are no structures on the properties. Mr. Hartman continued that the properties are bordered by residential properties to the east, west, and south and undeveloped property to the north being the Croatan National Forest; supported by R-20 zone to the northeast and west, MC, B1 and R15-M to the west, and R-15, B-1 and B-1A to the east. Mr. Hartman shared that 38 surrounding property owners have been notified and the property has been posted; staff has received one letter of objection and four letters of no objection. At their meeting on January 13th, the Planning Commission voted unanimously to recommend approval of the proposed rezoning.

Motion: Commissioner Cavanaugh made a motion to go into public hearing regarding the rezoning of this property; seconded by Commissioner Farrington. **Motion carried unanimously.**

Paul Duclos, 203 Cagle Road, Newport: Mr. Duclos stated that he has concerns about this change, specifically around the drainage situation with heavy rain. This area sustained a lot of flood damage and runoff from Florence. His concern is the individual septic runoff coming on to his property. Mr. Duclos stated that there was sufficient drainage at one time running off Cagle Road across 24 before the highway was built to what it is today. He believed water would be backing up on properties. Mr. Duclos shared that the concern is the homes going in with City water and individual septic, he feels there will be septic runoff coming to their properties, not just rain water. Mr. Duclos stated that he feels it is a health hazard, which he would like to note. He is also concerned about the speed limit through the Board Creek area. It was raised years back to 55; we have had numerous deaths and accidents in that area as a result. With more homes going in, we would like to see the speed limit reduced back to 45 at least. His concerns are sewage runoff on their properties and speed limits in their area. He thanked the Commissioners for their time.

Commissioner Wheatly asked if this was his first meeting. Mr. Duclos stated he was also at the Planning Board Meeting last month. He has lived on Cagle Road for 28 years. Commissioner Wheatly asked if he spoke at Planning Board meeting; Mr. Duclos shared that he did.

Commissioner Cavanaugh asked about a property Commissioners rezoned last month off of Highway 24, the Dixon property, and asked if the property in question near Cagle Road was adjacent to the Dixon property on the back. Mr. Hartman stated it was a little bit northeast of the intersection of Cagle Road and Highway 24. Commissioner Wheatly asked what is a little bit. Mr. Hartman replied a quarter of a mile. Commissioner Wheatly asked if the Planning Board had approved this. Mr. Hartman confirmed and stated that the Planning Board had been made aware of some of the concerns. The storm water permit would deal with storm water once they applied for that.

Commissioner Cavanaugh asked if they had submitted a plat plan yet; Mr. Hartman said no plan has been submitted, that this was a rezoning to reduce the lot size to 15,000 square feet as opposed to 20,000 square feet.

Commissioner Comer stated that he would like to share some information; on the storm water rules, when you breach 12 or 12½% coverage, you have to retain the first four inches of rain on the property; it is usually directed toward whatever the water flow is for that area, which may be a benefit. Secondly the road issue – Highway 24 has been an issue for a while with traffic accidents. Commissioner Comer shared that we are currently winding up a study, which is actually in planning now for Highway 24 to help steer and direct the traffic better, and should be a real help.

A citizen from the audience shared that it is right across the street from schools; they put up those barricades in the middle of the road; are they going to be allowed to make a left turn. Commissioner Comer shared that he is not sure, he has not seen down the whole corridor, but is sure the information could be found on the DOT website.

Commissioner Comer confirmed that the citizen was speaking of Croatan and Bogue Sound Elementary. Commissioner Farrington stated that this was a different subdivision, a different property. Mr. Brogden shared information on the location of the property.

Larry Rider, Cagle Road: Mr. Rider stated that he agreed with Mr. Duclos; he feels that they are taking the land and trying to jam too many houses on it; he would like to keep it the same.

Commissioner Cavanaugh asked about the process for laying out the houses; Commissioner Comer shared that you would not know at this point.

Paul Duclos stated that he has not seen a plan about how many homes are going to go in; he has been told an estimate of 40-50 homes. It's going to put all the septic tanks washing through his front yard – he does not want septic washing through his front yard. It's a health issue. Area sustained a lot of flooding and damage during Florence. Goes back to improper drainage that was not set up properly years ago to keep water off of these properties. With this development, I'm not against progress, but we need to keep it clean. Commissioner Comer asked Mr. Duclos if his septic runs out when it floods. He said no, it doesn't. Commissioner Comer asked if his neighbors' septic runs out in the street. Mr. Duclos said that yes, the ones who are on lower property, yes, their septic tanks flood out.

Commissioner Wheatly asked if the Health Department had ever been out there and investigated. Mr. Duclos said he did not know if they had been notified or not; he does not own the property. He again stated that it goes back to improper drainage installed years ago.

Motion: Commissioner Wheatly made a motion to go out of public hearing; seconded by Commissioner Cavanaugh. **Motion carried unanimously.**

Motion: Commissioner Comer made a motion to change the zoning on the 63 acres from R-20 to R-15. Commissioner Comer recommended the people here tonight attend the Planning meeting to voice their concerns. Commissioner Farrington seconded the motion. **Motion carried;** Commissioner Cavanaugh abstained.

Motion: Commissioner Comer made a motion to approve the Statement of Plan Consistency; seconded by Commissioner Farrington. **Motion carried.**

FROM: Eugene Foxworth, Assistant County Manager
RE: Request to rezone three properties totaling 63.40-acres located at the Highway 24 and Cagle Road intersection in Newport, NC 28570 (PIN #: 632603234395000, 632603237359000 & 632603330578000) from R-20 (Single-Family Residential District) to R-15 (Single-Family Residential District).

- Salt Creek Holdings, LLC is requesting to rezone three properties totaling 63.40-acres located at the Highway 24 and Cagle Road intersection in Newport, NC from R-20 (Single-Family Residential District) to R-15 (Single-Family Residential District).
- Currently, there are no structures on the properties. The subject properties are bordered by residential properties to the east, west and south, and an undeveloped property to the north.
- The subject properties are bordered by R-20 zoning to the north, east and west. The subject properties are also bordered by MC, B-1 and R-15M zoning to the west, and R-15, B-1 and B-1A zoning further to the east.
- The subject properties are situated within two CAMA Land Use Plan classifications, Limited Transition and Protected Lands. Areas included within the Limited Transition classification are areas that will experience increasing development during the next five to ten years. Areas included within the Protected Lands classification are lands that are not under Carteret County or municipal planning or regulatory jurisdiction. Included in this category are federal, state, local, and non-profit property and easements that are managed for conservation and open space (i.e. Croatan National Forest).
- As the future land use map is currently drawn, this request is not consistent with the CAMA Land Use Plan because it does not meet any of the Protected Lands classification requirements. It is staff's belief that the classification line should follow the property lines, which would make the subject properties Limited Transition and the Croatan National Forest Protected Land.
- At their meeting on January 13, 2020, the Planning Commission voted unanimously to recommend approval of the proposed rezoning map amendment stating, "The Planning Commission finds and determines that Case # REZ19-000006 is consistent with the goals, objectives and policies of the CAMA Land Use Plan."
- Twenty-three surrounding property owners have been notified and the properties have been posted. To date, staff has received one letter of objection and four letters of no objection.

VII. PUBLIC HEARING TO CONSIDER A PROPOSED TEXT AMENDMENT TO THE MANUFACTURED HOME, MANUFACTURED HOME PARK, AND RECREATIONAL VEHICLE PARK ORDINANCE, ARTICLE 3, SECTION 1.18

Mr. Gregg Hartman explained that this proposed text amendment would remove Article 3, Section 1.18 from the Manufactured Home and Recreation Vehicle Park Ordinance; it would move the 300 square foot maximum size requirement for screened porches, rooms, decks, sunrooms, and other enclosures in approved recreational vehicle parks. The Planning Commission heard this proposed text amendment at its January 13th meeting last month and voted unanimously to vote for its approval.

Motion: Commissioner Comer made a motion to go into public hearing; seconded by Commissioner Wheatly. **Motion carried unanimously.**

No one wished to speak in public hearing.

Motion: Commissioner Comer made a motion to go out of public hearing; seconded by Commissioner Smith. **Motion carried unanimously.**

Commissioner Cavanaugh commented about the last issue they addressed, the 63.40 acres, he had asked if it was adjacent to the Dixon property which Commissioners rezoned last month. Commissioner Cavanaugh stated that he is looking at the map and it is directly adjacent to it; there is no quarter-mile separation between them. The two pieces of land, collectively, would be about 110 acres; The Dixon land has the ten-acre man-made pond on it. Mr. Hartman apologized, noting that the Salt Creek Holdings have done a number of rezonings the last couple of months. Commissioner Cavanaugh asked why Mr. Hartman thought it was a quarter of a mile between that piece of property and the Dixon property. Mr. Hartman commented that he meant a quarter of a mile from the intersection of Cagle Road and Highway 24. Commissioner Cavanaugh stated that he had asked if it was adjacent; Mr. Hartman again apologized.

Motion: Commissioner Comer made a motion to approve the resolution to amend Section 3 Article 1.18 of the Carteret County Manufactured Home, Manufactured Home Park, and Recreational Vehicle Park Ordinance proposed text amendment; seconded by Commissioner Farrington.

Commissioner Robinson stated that he understands if somebody wants a bigger porch, but isn't there a minimum lot size you have to have in the mobile home and RV parks. Commissioner Comer confirmed. Commissioner Robinson stated this goes beyond a 300-foot porch, would they be able to cover the whole lot size with a porch or a deck? Commissioner Comer stated it would be up to the park manager. Commissioner Robinson stated there is no stop on this; there is nothing prohibiting someone from building a porch the size of the whole lot; said there should be a threshold.

Mr. Hartman shared that staff did consider about limiting the size and went back and looked at the ordinance back to the 70's when it was 300 square feet; we thought about 400 or 500 feet; we decided that the number was subjective and decided to remove it all together. Commissioner Robinson shared that he does not feel that it is subjective if it takes in the whole lot.

Commissioner Cavanaugh asked if this tied in with the previous items Commissioners were talking about – is this going to be great big giant mobile home park in Broad Creek? Mr. Hartman stated, no; mobile homes would not be permitted in the R-15 zone.

Commissioner Wheatly asked if this was unanimously approved at the Planning Board meeting. Mr. Hartman confirmed that it was.

Chairman Smith called the motion stating that there had been a motion to approve and a second. Commissioner Robinson stated that he was opposed. **Motion carried.**

VIII. REVIEW OF DEPARTMENTAL STRATEGIC PLANS

**STRATEGIC PLAN/CARTERET COUNTY AREA TRANSPORTATION SYSTEM
("CCATS")**

Mr. Randy Cantor provided an overview of his department's five-year Strategic Plan. Mr. Cantor shared ridership had been over 75,000 trips, or right at it; we are back down to 66,000. Mr. Cantor stated that this could be contributed to Hurricane Florence; we lost a month and half of ridership; with Dorian, we lost another three weeks. We had anticipated that we would be over 80,000 trips by year-end prior to these storms. Mr. Cantor provided information as shown within his plan on the need to grow additional vehicles; he also shared that they converted their fleet to propane. In the first six months of this year, we saved over \$30,000 as a result, and have also seen a decrease in the service and maintenance on the vehicles. Mr. Cantor relayed that the biggest change or question mark is the Census. If the Census says the population has grown enough, the State will want us to move into what is called a small, urban system similar to what Craven County has. Mr. Cantor stated that the population cut-off for that is 60,000 in one populous area; that change would mean that more than half of our funds would come straight from the Federal Government, which would be more regulations and scrutiny. Mr. Cantor stated that he would see a surplus again this year; revenue streams have grown; contracted services have grown and we are going to begin looking at advertisements on our vehicles next year as another revenue source.

Chairman Smith thanked Mr. Cantor for doing a good job.

STRATEGIC PLAN/COOPERATIVE EXTENSION

Mr. Shawn Banks shared the mission of the North Carolina Cooperative Extension and shared that they also house the Carteret Soil & Water Conservation District; their responsibility is to protect our natural resources by providing technical assistance to individuals and groups and to inform and educate the public on the best use of conservation practices. He shared that the Cooperative Extension also houses the Carteret Big Sweep, which is to engage the public in protecting the environment through educational programming and scheduled clean-ups, and shared information on the need for additional part-time assistance in that department.

Commissioner Cavanaugh asked how often the big sweep projects are done. Mr. Banks shared that they had two to three cleanups every month last year; in April, there were 10 and in October, there were 22. Mr. Banks responded to Commissioner Cavanaugh's question about where the sweeps took place; the areas they were concentrating on were mostly rivers and waterways and roadside areas that DOT was not cleaning up before their mowing. Mr. Banks shared that efforts to clean up Hibbs Road was difficult because of all the traffic along Hibbs Road and how close the traffic would be to those attempting to clean up that area.

Commissioner Wheatly asked if the Big Sweep program director was flexible with moving people from place to place; Mr. Banks replied that she was. Commissioner Wheatly commented that Hibbs Road was probably the worst place in the County with regards to litter. Mr. Banks shared that Ms. Smith has been working with folks to cover up the back of their vehicles to prevent accidental litter blow-out.

Commissioner Cavanaugh asked Mr. Foxworth about machinery repairs on the machine that sprays adhesive on truck loads going out of the landfill to cut back on litter blow-out. Mr. Foxworth reported that the machine was not working for a short period of time, but has been operational again for a while and only applies to loads that are going out from the landfill. Commissioner Cavanaugh inquired about enforcement for those vehicles that are allowing trash to blow off the back of their trucks, etc. Mr. Foxworth replied that the Sheriff's Department would enforce that. Sheriff Buck explained the difficulty involved in catching someone in the act of littering.

Commissioner Cavanaugh commented that we have got to do something in this County about the litter problem; spent additional money on additional pick-ups last year, and it doesn't appear to be any improvement.

Commissioner Wheatly commented that we need to make an effort to address this; understands Sheriff's standpoint about not being able to enforce this law; we still need to do something.

Chairman Smith requested that County Manager Tommy Burns set up a meeting with Mr. Banks to further discuss the trash issue and how to improve the situation.

Mr. Banks stated that he has seen a large increase in the number of programs they have which is why he had brought up the possibility of needing more personnel to help out with these programs. Mr. Banks hoped to see an increase in positions within his department. Commissioner Cavanaugh asked how many were on his staff at the moment; Mr. Banks replied that he has a staff of six.

Mr. Hall discussed some upcoming plans for future projects and the need to potentially add positions to his department with the addition of the new library machines.

Commissioner Cavanaugh asked roughly how often we were exposed to cyber attacks. Mr. Hall replied that it was by the hour; they block an unbelievable amount of emails coming in. Mr. Burns stated that the Tax Department did conduct a market analysis on the property and it is brought before the Board to accept or reject the offer.

Commissioner Cavanaugh asked what the Tax Department's assessment was. Mr. Burns answered that they made a value determination; they did not give a suggestion. Mr. Burns shared that the current tax value of the property is \$14,985.

Re: I*P* 024 - 118 Tradewinds Road

Dear Mr. Carl Tillman:

We are a married couple from Bedford, PA who have family in the Sea Gate Community. We are currently in the process of purchasing the 120 Tradewinds Road property in the Sea Gate Community. We would like to purchase the 118 Tradewinds property that the county has for sale. We would like to combine both the 118 and 120 properties for a double lot to build a home on.

We plan to pay for the property in cash and would like to put a bid of \$1,500 in for the 118 Tradewinds Road property. Please let us know what the next steps would be.

Thank you for your time concerning this matter. We can be reached at the phone numbers above.

Sincerely,

Christopher Jenkins

Tronnie Miller

X. MANAGER'S REPORT

Mr. Tommy Burns, County Manager, reported that he and the Assistant County Manager/Finance Director met with the Board of Education to discuss some potential Bond Referendum material that may be coming up. Mr. Burns shared that they will conduct a planned joint meeting between the Commissioners and the Board of Education on March 10, 2020 at 10:00 a.m. at the Board of Education's office where we can go in more in depth about the timeline and process of some of the projects on that list. Mr. Burns shared that at a recent jail committee meeting, they discussed the jail expansion plans. We are all in agreement that we are looking at something that is going to be economical and feasible for the County and also a good, long-term efficient strategy to address the jail overcrowding. Mr. Burns announced that the new Library Director started today. He stated that if anyone had questions about the library merger, everything on the County end is still in process. Mr. Burns reiterated that Mr. Hall mentioned the Library merger and the effect it will have on the IT Department, and shared that they had planned that it may happen, and would probably be including that in the upcoming budget cycle on his request.

Commissioner Cavanaugh asked about the meeting with the Jail Committee and questioned if they had come to an agreement. Mr. Burns shared that the Jail Committee consists of representation from the Sheriff's Office, the Manager's Office, and a couple of Commissioners. He feels that the consensus was they had to look at something economical and affordable that will address the overcrowding issues.

Commissioner Comer shared that they have been looking at the different options; in doing that, we have learned a little bit about operations and we have a better idea of the number of people it is going to take. There are options that will reduce staff versus options where you cannot; we are trying to get all that collected, so that we will have the information laid

out. Commissioner Comer felt that the committee would have the facts laid out within a 60-day timeframe. Commissioner Wheatly described the 11 different plans that were presented to Commissioners over the last several months and commented that they had looked at them pretty extensively. Commissioner Wheatly stated that within the last ten days, they brought in a competitor to give us a comparative pricing.

Commissioner Robinson added that they were exploring all of the options; they should have the information in a reasonable amount of time as noted by Commissioners Comer and Wheatly. Commissioner Robinson stated that any decision to move forward would require participation from all the County Commissioners.

Commissioner Cavanaugh made a recommendation to reappoint Ms. Lavonda Daniels for an additional one-year term. Commissioner Farrington recommended the reappointment of Mr. Stephen Finch for an additional one-year term. Commissioner Mansfield's appointee was tabled. Commissioner Robinson recommended the reappointment of Mr. Charles Mason for an additional one-year term. Commissioner Comer recommended the reappointment of Mr. Jeffrey Nelson for an additional one-year term. Nominations carried as recommended.

Commissioner Cavanaugh recommended the reappointment of Ms. Paige Taylor-Ward for an additional three-year term; nomination carried.

Consolidated Human Services Board

Commissioner Cavanaugh nominated Ms. Lindsay Creech for an initial four-year term; seconded by Commissioner Farrington. Nomination carried.

Commissioner Robinson recommended the reappointment of Mr. Richard Gillikin and Mr. Thomas McArthur for additional two-year terms. Nominations carried.

Commissioner Cavanaugh recommended the initial appointment of Ms. Morgan Mason. Nomination carried.

Commissioner Wheatly asked the Clerk if Commissioners were overlooking an appointment for an alternate seat on the Beaufort ETJ; Ms. Hammer shared that the recommendation would be placed for approval at the Commissioners' March meeting.

XII. COMMISSIONERS' COMMENTS

Commissioner Wheatly stated that he was listening with great interest to what Ms. Krusz had to say about the drug problem and shared that he is very sympathetic to what she says. The drug problem is not just a problem in the eastern part of County; it is all over North Carolina. Commissioner Wheatly shared that the Sheriff and his team, the Schools, and everyone he knows is aimed and ready to do whatever they can to see how they can deter this epidemic that is so costly to so many families. Commissioner Wheatly shared that he feels that we need to give Ms. Krusz the information that is available about the Trillium program which is also a long-term and a short-term project and something that we have been contributing to as a County. Commissioner Wheatly shared that they are very much aware of the opioids, the heroin; we deal with it and talk about it every day. Nobody wants to do more about it or as much about it as Commissioners do; it is a horrible thing. It is not just in the lower income; it is in all levels of income and it is a deadly, deadly roulette. Commissioner Wheatly noted that he does want to make her aware of the Trillium program. That is not enough and it is not the total answer, but it is a good place to start and for us to learn from. Commissioner Wheatly shared that the main thing that he can say is keep your eyes open and ears open and don't be scared to step out in front; don't be scared to say no; don't be scared to pick up the telephone and call somebody. When they are dead and gone, you do not have that opportunity anymore; do something about it while you can.

Commissioner Cavanaugh shared that one of his side jobs in the Marine Corps was a Drug and Alcohol Abuse Program Control Officer. I had to deal with marines with substance abuse issues and would evaluate them and send them off to rehabilitation. One of the most prominent things that he got out of it was that you cannot help these people unless they want help. You could put them in a treatment facility, but if they are just there because the Judge told them to be there and not there to help themselves, then no good is going come out of it. Commissioner Cavanaugh shared that in the last budget cycle, we approved funding for a new program called Botvin LifeSkills training program which has been incorporated into the school curriculum starting in the elementary level and going all the way through high school. They advertise a 70-80% success rate in lowering substance abuse among the individuals who went through the training course. We will not see the results of that for years to come as these kids make their way through the program. Help is on the way for the future; for the present, unless these people are willing to be helped, you can't help them. He shared that substance abuse in Carteret County is at the forefront of their thoughts every day. Commissioner Cavanaugh commented that the Sheriff is doing an outstanding job in arresting folks that are dealing and selling and using narcotics, but we can only hold them for so long; they get bailed out or released and two weeks later, they are back in jail. It is a vicious cycle and costs us a lot of money. Commissioner Cavanaugh shared that it would cost a lot of money to rehab the facility behind the hospital; he does not know what physical condition it is in, but felt that if it was habitable, they would be using it. We cannot get into the business to providing habitation for substance abusers; there are jails for that. It would be an enormous expense to have hundreds of people in there long-term; you have to feed them, provide medical care, along with the administrative overhead. It is not a solution that we

can handle at the County level. If the Federal Government wanted to pick up the tab, it would be different. Substance abuse in Carteret County is at the forefront of our thoughts every day; we are doing what we can within our means. We participated with Onslow, Craven, Jacksonville and others and opened up a crisis center in Jacksonville to alleviate the burden on the hospital. It saves the hospital an enormous amount of money; they contributed \$100,000; they are saving at least twice that.

Commissioner Farrington shared that the Dix Crisis Center, as of about 15 days ago, is able to take IVCs (involuntary commitments); they had been waiting for that to come through and feel that it will make a difference. Commissioner Farrington shared that it is being well used and shared a couple of programs; he would like to speak with Ms. Krusz and let her know what we are doing. Commissioner Farrington shared that as part of our advisory group for the Dix Crisis Center, they have set up a program to try to get some scholarships for people that go to the Dix Crisis Center or people that go in to recovery; it is usually about a \$400 fee that people do not have. They are going through faith-based organizations and realtors are also helping in Onslow County. We are asking people in Carteret County to do it as well. Commissioner Farrington shared that they were also working with Trillium on the different programs so it is not just a revolving door with the jail system. The Sheriff has a great program going where people are being placed on electronic monitoring and are able to go into a program where they are going to get treatment. If they do not do the treatment, then they go back to jail – court ordered by the Judge. Commissioner Farrington shared that he feels they are doing all that they can, but we have to do more. When Ms. Krusz brings up these numbers, it really opens your eyes to what is going on. It needs to get a lot better and it's not - it's an endless battle that we've got to keep fighting. Commissioner Farrington thanked folks for coming out; we did pass the Resolution on the 2nd Amendment.

Commissioner Robinson thanked the Clerk, Ms. Hammer, for compiling a list of providers that support families and individuals in need of services regarding addiction. Commissioner Robinson shared that he provided the information to Ms. Krusz. Commissioner Robinson stated that if it is not, the information should be included on the Website. Ms. Krusz was very appreciative of the information; Commissioner Robinson advised that if you know of anyone involved in the manufacture, sell, or distribution of these narcotics, the Sheriff has reminded him that the best investigators rely on information from the public. Commissioner Robinson provided the number to CrimeStoppers, 726-INFO, and stated that these reports are anonymous. Commissioner Robinson stated that the Sheriff can be reached at 728-8400 and they will transfer you immediately to a detective. Commissioner Robinson stated that there is a war on drugs; it is going to take all of us getting involved. Commissioner Robinson closed noting that he appreciates the Sheriff's efforts, as well as those in mental health, and social services. Commissioner Robinson asked the Clerk to make sure the information is posted on our Website.

Commissioner Farrington mentioned the Peer Recovery Center in Morehead City can be reached at 252-222-3888; this information is on the County website. There are folks there that can help you if you are in a crisis and you need help. Commissioner Farrington

mentioned that Trillium is also available as a resource, and a program called Mobile Crisis is available and ready to help in two hours' time. Commissioner Farrington reiterated Commissioner Robinson's comments; if you know of someone of need, contact someone to help. There is a program called Mobile Crisis that if someone is in need, they will actually send someone out to the site and will be there in less than two hours. That has been proven here in Carteret County; they are available and ready if you need help. There is such a great number of people that do not ask for the help; sometimes you have to ask for help for somebody.

Commissioner Comer provided a summation of what other Commissioners have said and shared that Carteret County has invested and continues to invest from the get-go; i.e., we are trying to hit it early in the schools and prevent someone from getting on a path that will lead them in the wrong direction. We have invested County resources on the acute end of things with the Crisis Center in Onslow County. We have invested a tremendous amount of County resources in the Peer Recovery Center, Trillium and others; we are working on it. We have invested resources and will continue to do so.

Chairman Smith stated that there is not too much more to say; he appreciates everyone coming out.

Subj: Request for acceptance of grant funding from State of North Carolina and subsequent release of funding to Emergency Services

Carteret County Communications and Emergency Management recognized a need for enhanced internet and cellular capabilities in the event of a large scale service degradation. Based on this recognition, Carteret Emergency Communications requested consideration for DPR (Domestic Preparedness Region) funding to support the purchase of a Plum Case, otherwise known as a multi-vendor cradle point router device.

This device will allow access to multiple wireless vendors services in order to sustain internet and wireless connectivity in the event of a single or multiple carrier outage.

Carteret County was notified of their selection to receive the grant money in late January of 2020 via MOA from the State of North Carolina. This is a no match grant from the State, with the state reimbursing Carteret County for the full purchase price of the Plum Case as soon as procurement has been completed.

The total purchase price of the Plum case and associated accessories is \$11,135.71. Carteret County has been advised that the State will award the County funds in this same amount should this be approved.

Copies of the MOA and equipment quotes are attached.

Thank you,

DHS financial assistance recipients must complete either the OMB Standard Form [424B Assurances – Non-Construction Programs, or OMB Standard Form 424D Assurances – Construction Programs as applicable](#). Certain assurances in these documents may not be applicable to your program, and the DHS financial assistance office (DHS FAO) may require applicants to certify additional assurances. The United States has the right to seek judicial enforcement of these obligations.

Memorandum

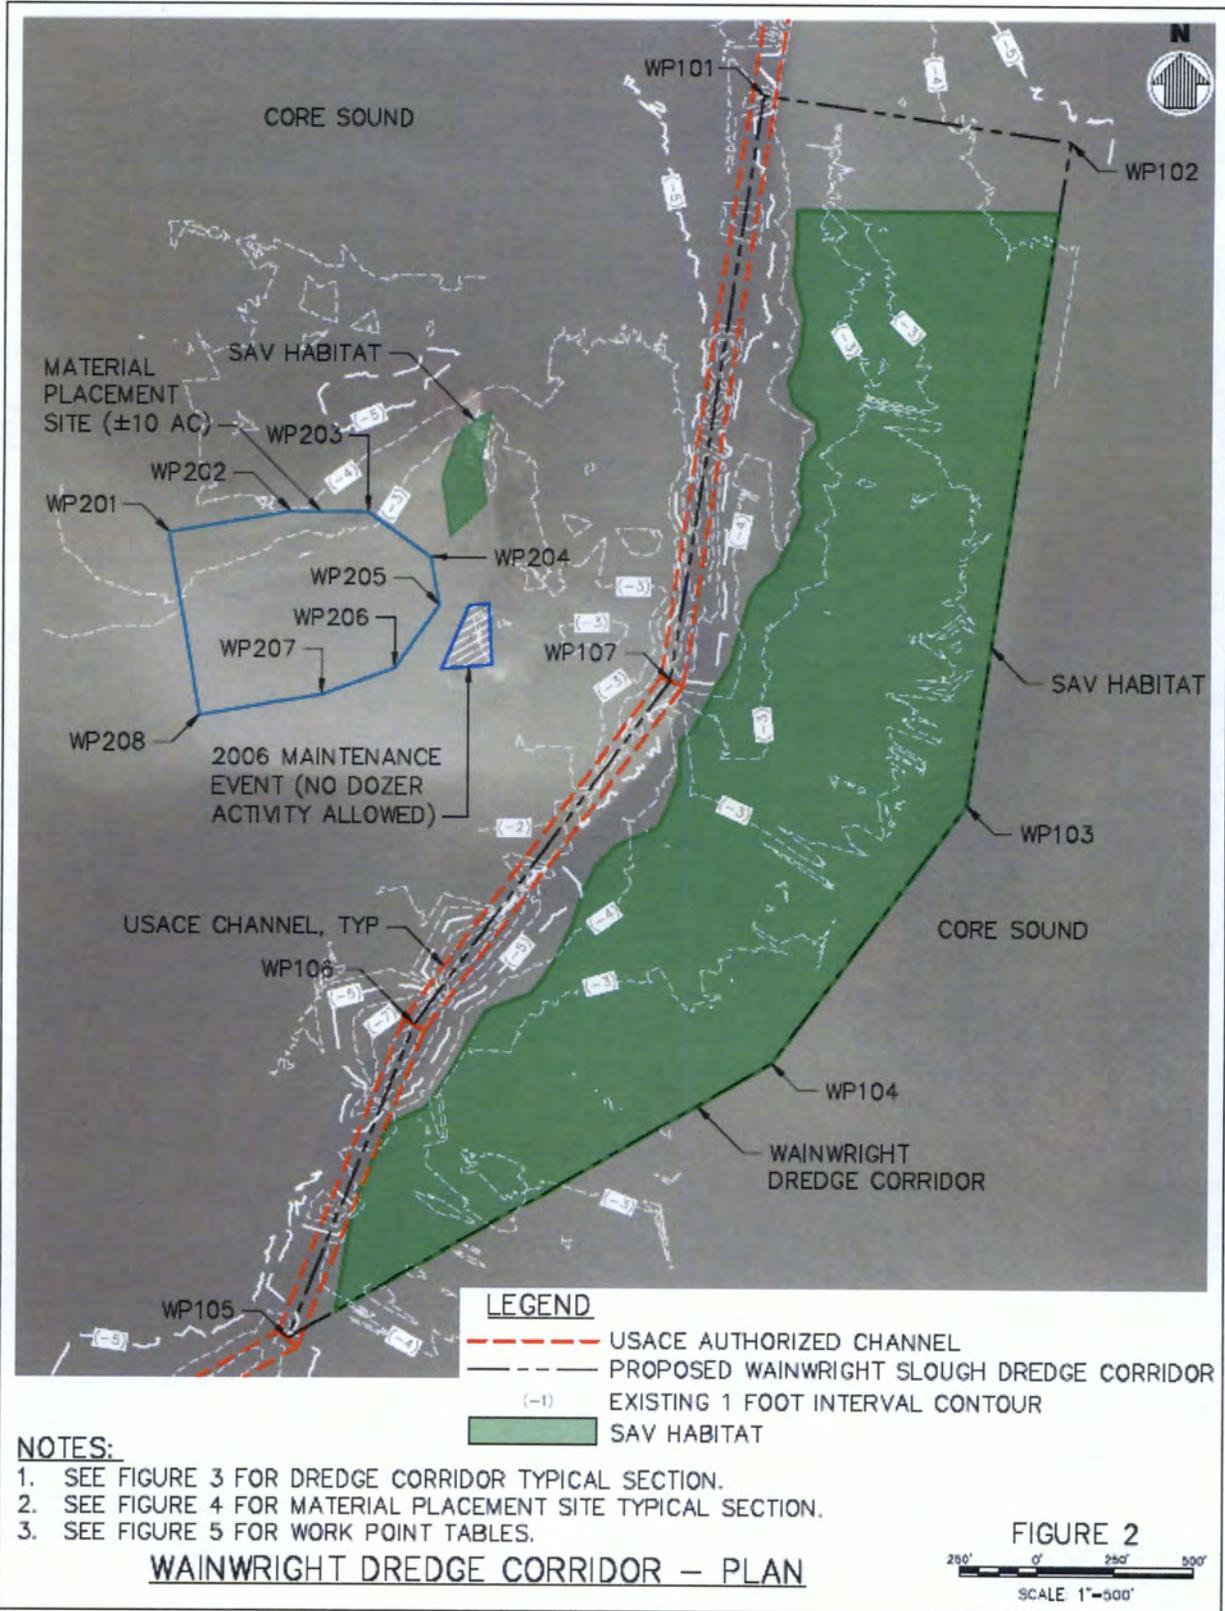

To: Carteret County Board of Commissioners (CBOC)
From: Greg "rudi" Rudolph
Date: March 16, 2020
Re: Wainwright Slough - Approval to Execute Permit from the North Carolina Department of Environmental Quality & Coastal Resources Commission

The CBOC is respectfully requested to approve the attached Major Modification to CAMA Permit #29-17 associated with our efforts at the Wainwright Slough Navigation Channel.

The CBOC is aware of our 2017 dredging project at Wainwright Slough when for the sake of expediency; we were required stay within the U.S. Army Corps of Engineers authorized fixed-channel alignment. This provision prevented us from "following the deep water", which would have resulted in less dredging material excavated from the channel and would have kept the channel further away from the disposal site – Wainwright Island. The closer the channel is to the disposal site, the more likely any material eroding from the Island will find its way to shoal the channel. Thus as a proactive measure, in 2018 we started pursuing the concept of a dredging corridor whereby we could follow the deep water the next time channel depths reached unsafe levels. As a visual aid, the attached figure immediately below provides a depiction of both the fixed channel (red hashed line) and the dredging corridor (black hashed line). Of course this required significant federal and State regulatory coordination, and I'm pleased to report the final approval has been codified as a major modification to our existing permit (CAMA Permit #29-17), which requires the CBOC's approval and execution as attached.

Please note the CBOC is just being requested to approve the permit – any determinations related to actual dredging can be made at a later date (note: permit expires on December 31, 2022). This is a similar approach we have taken at Atlantic Harbor, East Taylors Creek, and the Old Ferry Channel – i.e., secure the permits first and prioritize construction later. We have also been utilizing the State's Shallow Draft Navigation Channel Dredging & Aquatic Weed Fund ("Shallow Draft Fund") in a similar manner – secure a 2/3 reimbursement grant for the permitting phase, and subsequently secure a separate 2/3 reimbursement grant for construction. For the Wainwright Slough permitting initiative, our NCDEQ Grant Contract is #7447 and includes a maximum total cost of \$235,454 (\$156,969 State and \$78,485 County). However, our actual cost is going to be closer to \$150,000 total, or \$100,000 State and \$50,000 County.

Thank you for considering this approval request and I'll be glad to answer any questions the CBOC may have either at your March 16th meeting or in the interim leading up to this date – please don't hesitate to call or email if needed in this latter regard.

The enclosed permit constitutes authorization under the Coastal Area Management Act, and where applicable, the State Dredge and Fill Law, for you to proceed with your project proposal. The original (buff-colored form) is retained by you and it must be available on site when the project is inspected for compliance. Please sign both the original and the copy and return the copy to this office in the enclosed envelope. Signing the permit and proceeding means you have waived your right of appeal described below.

If you object to the permit or any of the conditions, you may request a hearing pursuant to NCGS 113A-121.1 or 113-229. Your petition for a hearing must be filed in accordance with NCGS Chapter 150B with the Office of Administrative Hearings, 6714 Mail Service Center, Raleigh, NC 27611-6714, (919) 733-2698 within twenty (20) days of this decision on your permit. You should also be aware that another qualified party may submit an objection to the issuance of this permit within twenty (20) days.

The project plan is subject to those conditions appearing on the permit form. Otherwise, all work must be carried out in accordance with your application. Modifications, time extensions, and future maintenance requires additional approval. Please read your permit carefully prior to starting work and review all project plans, as approved. If you are having the work done by a contractor, it would be to your benefit to be sure that he fully understands all permit requirements.

From time to time, Department personnel will visit the project site. To facilitate this review, we request that you complete and mail the enclosed Notice Card just prior to work initiation. However, if questions arise concerning permit conditions, environmental safeguards, or problem areas, you may contact Department personnel at any time for assistance. By working in accordance with the permit, you will be helping to protect our vitally important coastal resources.

- 2) The excavation footprint shall be located entirely within the "dredge corridor", as depicted on the attached workplan titled "Figure 2 Wainwright Dredge Corridor - Plan".
- 3) Excavation shall not exceed -9' MLLW (excavation depth of -7 MLLW with a 2' overdredge allowance).

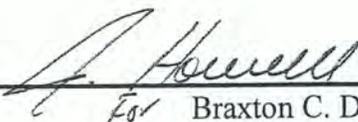

(See attached sheet for additional conditions)

This permit action may be appealed by the permittee or other qualified persons within twenty (20) days of the issuing date.

Signed by the authority of the Secretary of DEQ and the Chair of the Coastal Resources Commission.

This permit must be accessible on-site to Department personnel when the project is inspected for compliance.

Any maintenance work or project modification not covered hereunder requires further Division approval.

For **Braxton C. Davis, Director**

ADDITIONAL CONDITIONS

- 4) This major modification was issued based upon a determination that while the area to be excavated is immediately adjacent to areas containing actively growing submerged aquatic vegetation (SAV) beds, the area of proposed excavation would not directly impact actively growing SAV beds. During all authorized excavation events, the permittee shall implement all available precautions to ensure that damage to SAV beds does not occur. The permittee is further advised that Rules of the Coastal Resources Commission prohibit new dredging within SAV beds.

USACE Conditions

- 5) Best management practices identified as field marking the existing SAV population, wetland grasses, oyster reefs and any shell bottom locations at low-tide shall be implemented in order to prevent construction and dredging equipment from negatively impacting those resources.
- 6) Monitor all in-water line and materials regularly to ensure nothing has become entangled.
- 7) If lines or cables are used (e.g., to mark floating buoys or for turbidity curtains), in-water lines (rope, chain, and cable) must be stiff, taut, and non-looping. Examples of such lines are heavy metal chains or heavy cables that do not readily loop and tangle. Flexible in-water lines, such as nylon rope or any lines that could loop or tangle, must be enclosed in a plastic or rubber sleeve/tube to add rigidity and to prevent the line from looping or tangling. In all instances, no excess line is allowed in the water.
- 8) Cables or lines with loops used to move pipes will not be left in the water unattended.
- 9) Turbidity curtains will be used during dredging. Turbidity curtains will be made of material in which listed species cannot become entangled (i.e. reinforced impermeable polycarbonate vinyl fabric (PVC)), and shall be monitored to ensure listed species are not entangled or trapped in the action area. Turbidity curtains will be removed promptly when the work is complete and the water quality in the action area has returned to background conditions.

Bird Nesting Restoration

- 10) Unless specifically altered herein, the in-water disposal of dredge materials for the creation of bird nesting and foraging habitat shall be conducted in accordance with the attached permit drawings, and in a manner consistent with the procedures described in the attached project narrative dated "Revised October 2019".
- 11) This permit does not authorize the fill of any coastal wetlands.

General

- 12) This permit shall not be assigned, transferred, sold, or otherwise disposed of to a third party without the written approval of the Division of Coastal Management.

ADDITIONAL CONDITIONS

- 13) In order to satisfy concerns of the resource agencies and ensure compliance with the conditions of this Permit, and in order to ensure that each proposed excavation event follows the limits of the natural deep water channel, the permittee and his contractor shall schedule a pre-construction conference with the Division of Coastal Management, the U.S. Army Corps of Engineers, the National Marine Fisheries Service, the N.C. Wildlife Resources Commission, N.C. Division of Marine Fisheries and N.C. Division of Water Resources at least 30 days prior to the initiation of any dredging or mobilization activities. In order to facilitate these discussions a complete set of project plans including an updated SAV survey with current bathymetry and proposed channel alignment shall be provided to all listed agencies at the time of each request for a pre-construction conference.
- 14) This Major Modification shall be attached to the original Permit No. 29-17, which was issued to the permittee on 2/23/17, and copies of both documents must be readily available on site when Division personnel inspect the project for compliance.
- 15) All conditions and stipulations of the active permit remain in force, under this Major Modification, unless specifically altered herein.

Attached for your consideration is a \$32,100 budget amendment releasing SRO contingency funding to Morehead City. As you recall, the Commissioners funded SRO matches in contingency waiting for SRO State grants awards. Morehead City received one state grant; however, the Town hired three SROs for the three schools in town limits. The County set aside funding for a portion of two SROs positions. The Town is requesting the County release its matching funds for the two positions. Attached is an email from the Morehead City Town Manager and the necessary budget amendment to release the funds.

Hi Tommy and Dee:

I just wanted to follow up on the note below. With the fact that only one grant was given to the whole county, and as the County has graciously agreed to allow that to go to Morehead, can you please confirm that the \$16,050 County match for the one grant received from the state will be released by the County? Secondly, is there an opportunity to ask the County for release of the second officer County match as referenced below even though we did not receive the additional grant funding?

MEMORANDUM

TO: Board of Commissioners
FROM: Jaime Long, Human Resources Director
RE: Position Reclassification Request
DATE: March 16, 2020

This memorandum is to request approval to reclassify the Environmental Health Specialist (“EHS”) intern to a Registered Environmental Health Specialist (“REHS”) *in work against status*. This *in work against status* structure would have a novice EHS employee start at the REHS minimum rate with a condition that would include that they acquire the Registered EHS certification within a two-year period. The REHS is a grade 68 with a minimum salary of \$41,841.09.

For the EHS position, there continues to be higher attrition rates within the department due to State imposed regulations of specific education requirements and long training periods before the intern becomes a Registered Environmental Health Specialist (REHS). Changes are needed to recruit new REHS employees with and without experience.

A survey was conducted by the HR Department. Surrounding County Environmental Health salaries for the most part have increased since our last review. The County continues to receive rejections from experienced REHS candidates due to salary and has difficulty recruiting and retaining new EHS employees due to the education and training requirements mandated by the State.

In order to not cause inequity with the current staff of Environmental Health, HR recommends a 3% increase to the salaries of the current REHS and Program Managers. These salaries would reflect a comparable market to the surrounding counties. Also, in order for this structure to be successful in retaining staff, the merit system will need to continue to increase pay in the future to keep salaries competitive with the market.

Please do not hesitate to contact me if there are questions.

Sarah T. Davis
Tax Administrator

MEMORANDUM

TO: Board of Commissioners
FROM: Sarah Davis, Tax Administrator
SUBJECT: Budget Request – Commercial Appraiser
DATE: February 26, 2020

I would like to hire a Commercial Appraiser to join the Real Estate Division of the Tax Office.

FROM: Stephanie Cannon, Health Director

SUBJECT: Request to apply for Carolina East Foundation funding

DATE: March 16, 2020

The Health Department would like to request approval to apply for Carolina East Foundation funding. If approval is granted, the Health Department would request \$10,000. If awarded, funds would be used to assist uninsured patients with lab costs accrued through the Hepatitis C program at the Health Department.

Since June 2018, the Health Department has provided Hepatitis C treatment to uninsured and Medicaid patients. While the Health Department has partnered with several pharmacies to cover the cost of the medications for uninsured patients, uninsured patients are still required to pay for the required labs and office visits*. For the past year and a half, the Health Department has received funding from the state to offset the costs of labs/office visits for uninsured patients. However, at this point, we have expended all state funding allotted for this program and have been made aware there is not any future funding available.

This funding does not require a county match and the program will continue when the funding is spent.

16. Approval of Reclassification of Administrative Roles

MEMORANDUM

TO: Board of Commissioners
FROM: Jaime Long, Human Resources Director
RE: Classification of Administrative Roles
DATE: March 16, 2020

This memorandum is to request a reclassification of the County's administrative roles. Over time, the County has realized the work completed in many of the administrative functions within the Departments no longer match the County's current position titles and duties. In an effort to rectify this, Human Resources has reviewed Position Analysis Questionnaires (PAQ's) completed by the administrative staff across the County and we divided the roles into position groups based on the core competencies described in each questionnaire. Each position group was then assigned a grade and range based on these qualifications.

The results of this study concluded the need for eight core categories of administrative positions (6 administrative and 2 finance classifications), which encompass the duties of each individual position. Attached for your consideration are the duties and functions of each administrative category.

Being that staff in these administrative roles are vital in the success of each County department, we would like to request approval of the County's current administrative positions to be classified within the attached list of categories (Attachment A). This should also assist the County in retaining employees and recruiting new employees within the correct job classification of duties.

 PIN: 639904815933000 Current Zoning: IW Proposed Zoning: B1A

Please explain why the rezoning that you are requesting is warranted: Due to setback requirements, it is difficult to see how any structure could be built on this lot. The most suitable uses for this lot which would not require a structure are permitted under B1A. Also, most of the surrounding properties are residences. The reduced impact of B1A permitted uses would be much more appropriate than those permitted under IW. I own a lot diagonally across Tottles Grove Rd., and plan to build a house on it. I suspect that none of the surrounding residences would welcome any of the IW permitted uses, and would support the change to B1A.

1. **Rezoning Request:** Derek G. & Cherie P. Walker are requesting to rezone a 0.99-acre property located approximately 1,400 feet south of the Highway 101 and Laurel Road intersection in Beaufort, NC from I-W (Industrial & Wholesale District) to B-1A (General Business District).

Mr. Hartman presented the request.

Background:

Derek G. & Cherie P. Walker are requesting to rezone a 0.99-acre property located approximately 1,400 feet south of the Highway 101 and Laurel Road intersection in Beaufort, NC from I-W (Industrial & Wholesale District) to B-1A (General Business District).

Currently, there are no structures on the property. The subject property is bordered by residential properties to the north, south, east and west.

The subject property is bordered by R-15M zoning to the north, south and west, I-W zoning to the east, and B-1A zoning to the northeast.

The subject property is situated within the Limited Transition CAMA Land Use Plan classification. Areas included in the Limited Transition classification are areas that will experience increasing development during the next five to ten years. This request is consistent with the Land Use Plan.

Twenty-six surrounding property owners have been notified and the property has been posted. To date, staff has received no written comments.

Chairman Graham asked the board if there were questions for staff regarding the request.

Commissioner Myers asked about proposed boat storage on the lot and inquired about easement on driveway access and through traffic.

Mr. Hartman stated if property owners did take this course of action and wanted access off Highway 101 they would have to get a permit and approval from NCDOT.

Commissioner Rogers asked about the B-1A district and setback requirements.

Mr. Hartman acknowledged the proposed idea of a boat storage on the property and explained because it is a through lot, there would have to be a 50-foot front and 50-foot rear setback. The lot is

not 100-foot wide, so it is rendered unbuildable while there would still be a little bit of a building envelope for any use permitted in the B1-A district.

Chairman Graham asked if there was anyone in the audience that would like to speak. If so, please come to the podium stating your name and address for the record.

Ms. Joann Shaw, 491 Tuttle's Grove Road, Beaufort, NC 28516. Ms. Shaw had questions regarding what the future plans were for the property, asking if it was going to be a boat storage or something else that caused an eyesore to the community. Ms. Shaw also expressed concerns regarding fencing, appropriate lighting and potential vandalism in the area if things were not secured properly. Ms. Shaw was speaking for herself and surrounding residents in the area.

Chairman Graham asked if anyone had questions for Ms. Shaw. He asked if staff could answer any of Ms. Shaw's questions.

Mr. Hartman stated it was unsure what the plans were for the property but boat storage has been mentioned. The general rezoning would allow any use B-1A district. The sides would have buffering requirements for any use that is adjacent to a non-residential use.

Ms. Shaw asked what would be allowed to be on the property.

Mr. Hartman offered to provide Ms. Shaw with a table of listed use permitted in B-1A district and stated current zoning is IW.

Chairman Graham asked if there was anyone else who would like to speak.

Mr. Derek Walker, 490 Glenn Ruth Lane in Erwin, NC 28339. Mr. Walker stated he was happy to answer any questions and explain he owned an adjoining property beside the discussed area, he recently bought both pieces. Mr. Walker stated he respects it is a residential area and wants to keep it safe and looking nice. Mr. Walker is trying to figure out what to do with the lot, as the setback requirements would not allow any structure to be built on the property. Mr. Walker has had an idea to use the property as a boat parking lot, as for the fencing and lighting he has not thought that far ahead but does respect surrounding property owners concerns regarding fencing/lighting. Mr. Walker does want a boundary but has not decided about a fence yet. Mr. Walker stated the lighting from Dollar General is bright, he is not sure if more lightening is need. If there is a strong desire by neighbors to have it lit, he is open to that.

Commissioner B. Rogers asked what the address was to the adjoining residential lot.

Mr. Walker stated it does not have an address, it is a small diagonal lot that is north west to the discussed property.

Chairman Graham asked staff about the setbacks in B-1A district.

Vice Chairman Hunt asked how wide and deep the lot is.

Mr. Walker stated 75 feet, it never gets to 80 feet either way.

Mr. Hartman responded by stating the front and rear would both have 40-foot setbacks, because it is a through lot. IW is 50 foot in front and 50 foot in rear. Structure would not require any kind of variances to the setbacks. They could fence or do vegetation buffer.

Chairman Graham asked if anybody else had questions for Mr. Walker or if anybody else had anything else to add regarding this issue.

Ms. Shaw explained the Dollar General lights go off at 10 pm and again expressed her concerns about security in the area as well as appropriate lighting.

Chairman Graham asked if anybody else would like to speak. There were no more comments regarding.

Commissioner W. Rogers made a motion to approve the request. Commissioner Eckholdt seconded the motion. Motion carried with a unanimous vote.

Chairman Graham read the Statement of Consistency.

MEMORANDUM

DATE: February 18, 2020

TO: Carteret County Board of Commissioners

CC: Tommy Burns, County Manager

FROM: Eugene Foxworth, Assistant County Manager

RE: Request to rezone to a 57.63-acre property located at the Highway 24 and Marietta Lane intersection in Newport, NC (PIN#: 632603339643000) from R-20 (Single-Family Residential District) to R-15 (Single-Family Residential District).

- On behalf of Curtis S. Dixon, Salt Creek Holdings, LLC is requesting to rezone a 57.63-acre property located at the Highway 24 and Marietta Lane intersection in Newport, NC from R-20 (Single-Family Residential District) to R-15 (Single-Family Residential District).
- Currently, there are no structures on the property. The subject property is bordered by residential properties to the east and south, and undeveloped properties to the north and west.
- The subject property is bordered by R-20 zoning to the north, south and east. The subject property is also bordered by R-15 zoning to the east, B-1 zoning to the south and B-1A zoning further to the south.
- The subject property is situated within two CAMA Land Use Plan classifications, Limited Transition and Protected Lands. Areas included within the Limited Transition classification are areas that will experience increasing development during the next five to ten years. Areas included within the Protected Lands classification are lands that are not under Carteret County or municipal planning or regulatory jurisdiction. Included in this category are federal, state, local, and non-profit property and easements that are managed for conservation and open space (i.e. Croatan National Forest).
- As the future land use map is currently drawn, this request is not consistent with the CAMA Land Use Plan because it does not meet any of the Protected Lands classification requirements. It is staff's belief that the classification line should follow the property line, which would make the subject property Limited Transition and the Croatan National Forest Protected Land.
- At their meeting on February 10, 2020, the Planning Commission voted unanimously to recommend approval of the proposed rezoning map amendment stating, "The Planning Commission finds and determines that Case # REZ20-000002 is consistent with the goals, objectives and policies of the CAMA Land Use Plan."
- Twenty-five surrounding property owners have been notified and the property has been posted. To date, staff has received two letters of objection and six letters of no objection.

Excerpt from Planning Commission 02-10-20 Meeting

1. **Rezoning Request:** On behalf of Curtis S. Dixon, Salt Creek Holdings, LLC is requesting to rezone a 57.63-acre property located at the Highway 24 and Marietta Lane intersection in Newport, NC from R-20 (Single-Family Residential District) to R-15 (Single-Family Residential District).

Mr. Brogden presented the request.

Background:

On behalf of Curtis S. Dixon, Salt Creek Holdings, LLC is requesting to rezone a 57.63-acre property located at the Highway 24 and Marietta Lane intersection in Newport, NC from R-20 (Single-Family Residential District) to R-15 (Single-Family Residential District).

Currently, there are no structures on the property. The subject property is bordered by residential properties to the east and south, and undeveloped properties to the north and west.

The subject property is bordered by R-20 zoning to the north, south and east. The subject property is also bordered by R-15 zoning to the east, B-1 zoning to the south and B-1A zoning further to the south.

The subject property is situated within two CAMA Land Use Plan classifications, Limited Transition and Protected Lands. Areas included within the Limited Transition classification are areas that will experience increasing development during the next five to ten years. Areas included within the Protected Lands classification are lands that are not under Carteret County or municipal planning or regulatory jurisdiction. Included in this category are federal, state, local, and non-profit property and easements that are managed for conservation and open space (i.e. Croatan National Forest).

As the future land use map is currently drawn, this request is not consistent with the CAMA Land Use Plan because it does not meet any of the Protected Lands classification requirements. It is staff's belief that the classification line should follow the property line, which would make the subject property Limited Transition and the Croatan National Forest Protected Land.

Twenty-five surrounding property owners have been notified and the properties have been posted. To date, staff has received one written comment.

Chairman Graham asked if there was anyone who wished to speak. If so, please come to the podium stating your name and address for the record.

Ray Murdoch, one of partners of Salt Creek Holdings shared a little background about the request. Last month the board approved a connected piece. Mr. Murdoch said this property has very limited amount of development potential because of wetlands. There is a 5-acre lake, which they hope to provide some type of walking trail or other nice amenity for the adjoining community. Their goal is to get 10-15 lots on this piece. There should be no worry about joining subdivision next door; there is 500 feet of wetlands between the two areas.

Commissioner Eckholdt asked if will it create any safer access between properties?

Mr. Murdoch responded by stating they were in the early design stages with the engineer, but did not foresee the use of the 1,000-foot gravel driveway next to the lot as part of the development, except for maybe emergency vehicles. But again, there are no set plans in place.

Commissioner W. Rogers asked what the two letters of objections entailed.

Mr. Brogden informed the board that the objections were mainly traffic concerns regarding future congestion.

Mr. Murdoch stated this is not going to add a lot to density to other project they are starting as wetlands prohibits it.

Chairman Graham asked if anybody else would like to speak. There were no more comments regarding this request.

Commissioner Eckholdt made a motion to approve the request. Commissioner W. Rogers seconded the motion. Motion carried with a unanimous vote.

Chairman Graham read the Statement of Consistency.

Subject: Jail Positions

Attached please see information concerning my request for the Board to authorize three (3) new detention officer positions for the jail. We are in need of adding one detention officer to each of the 4 shifts to ensure proper jail operations with the increased numbers of inmates we are housing. Over the past few months finding bed space in other county jails has become almost impossible as other jails are full. Our staff are making daily calls trying to find bed space but with very limited success.

Beaufort, Nash and Lenoir county jails collectively have in recent months had to house 100-150 inmates in other jails due to various issues with their jails. Johnston County has around 100 inmates being housed in Wayne County. All of these other jails housing inmates in outside facilities affects our ability to find bed space. If we cannot find bed space to house inmates in other jails we will continue to have to house higher numbers in our jail which requires more jail staff. Even when we are able to house higher numbers of our inmates in other facilities we still have to hold these inmates in our jail when we bring them back for court which requires more staff.

On March 3, 2020 the total inmate population was 186 inmates; with only 19 inmates being housed in other jails due to limited available bed space. This resulted in the in-house population being 166 inmates on this date; which is 50 inmates in excess of the rated capacity of 116. It should also be noted that on this date we had 36 inmates who had been released from jail and were being monitored in the community on our Pre-Trial Release/Electronic Monitoring Program.

My staff and I have looked at our existing staffing and we feel that we can add one detention officer to each of the 4 shifts with the addition of only 3 new positions. We have one current position we plan to re-classify and add to one of the shifts as a sergeant.

The impact on the FY 19/20 budget is estimated at \$44,599.19 if all 3 positions were filled on March 30th. According to our budget projections it looks as if we will come in under budget on jail salaries for the current fiscal year approximately \$38,978 which would significantly offset the cost of this request.

**Personnel Position Request (Form D)
Fiscal Year 2020 - 2021**

4.	Brief Justification of Request:	
	<p>The Carteret County Sheriff's Office is requesting the addition of two Detention Officer Positions. These positions are needed in order to alleviate conditions due to long-term overcrowding in the jail.</p> <p>The jail is designed to have a maximum capacity of 116 inmates. Inmate population is routinely and consistently over populated by % to % percent or more. While we have housed as many as 60 inmates in other jails to get close to rated capacity in recent months the availability of bed space in other jails has become extremely limited and we have only been able to find bed space for 20-30 inmates leaving us with a population running from 140-160 or more physically housed in the jail roughly 30%-50% over rated capacity.</p> <p>The increase percentage in capacity results in an equal increase percentage wise of work and burdens placed upon the jail staff in all areas of jail operations including booking, bonding, release, change-out, classification, housing, inmate searches, cell searches, property storage and management, food service, laundry, commissary, phones, medical, tele-psych, inmate movement, transports to court and outside facilities, visitation, attorney visits, security rounds, increase numbers of inmates on special watch (medical, suicide, behavioral), grievances, responding to incidents such as fights, conducting investigations resulting from inmate misconduct and so on.</p> <p>The design of our jail and the population makes it difficult to keep certain inmates separated, to properly classify and monitor inmates.</p> <p>Overpopulated jails, while remaining understaffed causes current staff to be outnumbered and overworked. Jail overcrowding poses greater risk to inmates and our detention officers. It is essential that</p>	
	<p>Due to staffing limitations our regular training is affected and employee development suffers. Without sufficient man-power all operations are limited. Shifts constantly running at the bare minimum eliminates the peripherals that are needed to run a safe and secure facility. Adequate staff is also needed to help alleviate overtime-related fatigue & burnout. Tired officers reduces the level of alertness needed to perform the functions of the job safely.</p> <p>Detention officer's work is dangerous, high stress, low pay and low reward, which leads to a high turnover rate. With personnel shortages, routine vacation, sick days, training days, officer certification schools and the like, it is a constant challenge to maintain adequate staffing. Shortages create additional burden upon already overworked staff. Without the proper amount of staff available, safety, security and efficiency is jeopardized.</p> <p>Increased inmate population affects all aspects of the day-to-day operations of the facility. Detention officers are at greater risk performing security checks and counts in overcrowded jails due to the staff being outnumbered and more inmates housed in areas designated for less capacity. Increasing staffing levels will create safer conditions for inmates and officers.</p> <p>Overcrowding is a statewide issue, which proves difficult to find bed space in other jails to house our excess capacity. That being the case more inmates will be housed in our jail which requires more staff to operate the jail.</p>

4.	Brief Justification of Request:
	<p>The Carteret County Sheriff's Office requests one Detention Center Shift Supervisor (Sergeant) position due to the increasing demands currently placed upon the jail to ensure adequate supervision of inmates and oversight of staff.</p> <p>The demand for the supervisors to become more hands on has increased with the increase in inmate population. The growth of the jail population has required additional complex management of inmates, staff and jail operations.</p> <p>Complications arising from overcrowding can exacerbate mental health problems; increase the rate of violence and combative inmates that causes increased strain and burden on inmates, staff, supervisors and resources.</p> <p>Inmate overcrowding has increased the demands placed upon the detention center staff regarding jail operations, inmate control and care and affects all aspects of the day-to-day operations and that jail rules and regulations are followed.</p> <p>The Sergeant position is needed in order to place a sergeant on all four day and night shifts to oversee all aspects of the shift operations.</p> <p>These positions are needed in order to coordinate, direct and provide oversight for all aspects of various jail operations including, inmate booking (which includes receiving, searching, fingerprinting, photographing, medical and mental health screening, taking custody of inmate property and documentation, inputting arrest and other information in to the jail information management system), processing bail bonds, setting court dates, inmate classification, making housing assignments, maintaining various log records, processing court/commitment papers.</p>
	<p>Inmates must be continually monitored and observed in all housing areas, this is accomplished by officers performing state mandated round twice per hours for all inmates and 4 times per hour for inmates who are on increased watch. Inspection of inmate's quarters for contraband, sanitary condition and orderliness, conducting clothing exchanges and commissary. Distribution of meals to inmates, escorting inmates to visiting areas, to the law library, to the infirmary and other assigned activities. Overseeing the dispensing of medicine; administering first aid; make recommendations and changes to inmate classification for housing when warranted.</p> <p>Conducting head counts at the beginning and at the end of every shift assignment and accounting for every inmate. Assuring that new inmates are oriented to the rules and procedures of the facility; change duty assignments and replace absent subordinates as required. Supervise the preparation and/or prepare a variety of written and computer inputted reports and records. Investigate infractions, violations of jail rules and state laws, suspicious behavior and taking appropriate actions; brief oncoming shift concerning problems and activities. Assist in evaluating subordinate staff; provide training for correctional officers and conduct performance evaluations.</p> <p>Additionally supervisory personnel are needed to manage and support the greater demand for and the increase in jail/inmate programs such as and mental health, substance abuse recovery, mentoring and pre-trial release programs.</p> <p>Supervisory staff are needed in order to provide direction and guidance to staff to perform all of these duties and ensure that all activities are done with professionalism, accuracy, efficiency, and according to the laws and jail regulations of the State of North Carolina and the policies of the Carteret County Sheriff's Office.</p>

CIVIC CENTER

CRYSTAL COAST CIVIC CENTER

2020-2024 Strategic Plan

CIVIC CENTER

MISSION

The Crystal Coast Civic Center's mission is to provide a professional facility for public, private and commercial use and contribute to the local economy by attracting groups to plan events in Carteret County.

The Crystal Coast Civic Center was completed and opened for business in 1983. The building is located on property owned by Carteret Community College and operated by Carteret County Government. The overall objective is to promote the facility and book events, generate revenue and provide excellent customer service to all clients. We promote the facility by making solicitation calls, attending tradeshows, working closely with the Tourism Development Authority staff to sell not only the facility but the Crystal Coast as a whole. We conduct research to insure we are advertising on all the correct platforms, social media outlets and keep marketing and promotional material fresh and new.

Our staff works with each client from the beginning of the booking process until the event is fully executed. We host over 200 events per year including several large community events that generate tourism dollars such as Big Rock Blue Marlin events, Chocolate Festival and Wedding Expos just to name a few and over 80% of our business is repeat groups. We provide a community service to many local non-profit organizations as well as assist other County departments and the Community College with meetings and conference space. We also produce several tradeshows and expos throughout the year. The center is approximately 12,000 square feet of flexible meeting space and can accommodate up to 1,000 people. The Crystal Coast Civic Center has been producing quality events and providing superior service to the citizens and visitors of Carteret County for 35 years.

OVERVIEW

This strategic plan will be used as a guide for setting goals and priorities for the future development of the Civic Center. As new conference facilities open around the County that will be in direct competition with the Civic Center, it is important that we stay relative in the market and focus our efforts and resources towards achieving that goal. Utilizing a 5-7 year strategic plan will help guide us on future upgrades, equipment purchases, staffing needs and other operational decisions as well as ensure all staff members and key stakeholders are working toward the same goal. The method for developing this plan was through meetings with key personnel as well as facility assessments and trends in the meetings, convention and wedding industries.

TIMELINE

All programs and services are evaluated on a regular basis and adjusted to current situations (client needs, market supply and demand, historical data and booking projections). Future projections discussed in this plan are based on a 5-7 year timeline and can be adjusted based on internal and external factors.

CIVIC CENTER

PROGRAMMATIC OBJECTIVES

Overall objectives for the below listed programs and services are expected to continue as stated for the foreseeable future. However, there are external factors expected to impact particular clients currently utilizing services - Carteret Community College plans to open a Hospitality and Culinary Arts Center that will undoubtedly move some of the CCC fundraiser and general meetings and events away from the Civic Center. Beaufort Hotel opened in Summer 2019, Merrell Estates and Gardens open in the Spring of 2019, Carolina Home & Garden opened an event venue in Spring 2019 and 213 West Wedding and Event Center will open in the Summer of 2020 – all these new venues will affect the wedding market in this area.

Department Programs and Services

Sales & Marketing

Solicit groups to bring their events to Carteret County through participation in state wide trade shows, phone solicitation, outside personal sales calls to potential clients, community networking, partnerships with local hotels, caterers, attractions, businesses, and meeting venues. Advertising and marketing the center on a variety of platforms including digital marketing, social media promotions, print, digital and direct mail to ensure our facility is in the forefront for event venues on the coast of North Carolina. Generate revenue through sales including facility rental, linen rental, coffee breaks, food concessions, equipment rental, catering commissions and decoration rental.

Event Execution

The booking process includes: site visit with potential clients, writing proposals and contracts for space rental, collecting the proper permits, insurance and license. Event logistics - planning & recording every detail for all functions. Set up for each event including tables, chairs, stage, pipe & drape, table linen and décor. Preparing the kitchen facilities for use by caterers / customers. Ensure clean and working order of kitchen equipment (6 burner gas range, all ovens, fryers, ice machine, dish washing machine, coffee maker, walk-in refrigerator cooler, freezer). Monitoring each event to insure safety and security of facility and customers. After events, break down tables, chairs, etc. and set up for next function. Billing & collecting rental fees from clients and 15% catering fee from all caterers. Maintenance and upkeep of building and all equipment.

Coordinate logistics for large public events

Such as Bridal Fair, Carolina Chocolate Festival, Big Rock Blue Marlin Tournament events, Quilt Show, Beaufort Antique Show, Chamber of Commerce events, Allies for Cherry Point, Dancing with our Stars, Friends of Aging, Hospice House Christmas Tree Show, etc.

Coordinate Non-Profit Organizations Events

Provide a community service by working with a number of local agencies to produce fundraising events that benefit organizations in the County such as Empty Bowls for Hope Mission Soup Kitchen, Boys & Girls Club, Domestic Violence, Take a Kid Fishing, Salvation Army, Ducks Unlimited, Rotary Clubs, Partnership for Children Smart Start, etc.

Government Agencies Events: Organize and execute countless events and meetings for government agencies such as our own County department events, Carteret Community College, Carteret Co. Schools, Marine Fisheries, Carteret County Library, Co-operative extension,

CIVIC CENTER

Economic Development Council, Tourism Development Authority, NC Dept. of Transportation, etc.

Produce two consumer tradeshows: The Civic Center hosts two annual public events; Holiday Gift Show in November, and the Home & Garden Show in March. Organize every aspect, vendor solicitation, marketing, set up, etc.

Strengths

- Size, Largest facility in the County to accommodate events
- Flexibility to adapt space for small and large events
- Staff, high retention rate, track record for exemplary customer service
- Location, waterfront view
- Affordable rental rates
- County officials' commitment to improve the aging facility
- Ability to execute successful tradeshow

Weaknesses

- Aging facility and equipment
- Lack of adjacent hotel
- Inability to walk to restaurants and entertainment venues
- Customers must hire outside vendors for services such as catering, equipment rental, etc.
- Location on college campus limits sales opportunities (specifically ABC license)
- Parking issues on campus during week day events
- Lack of storage space for extensive equipment that could increase sales (i.e., outside wedding furniture, décor, etc.)
- Appearance of the exterior of the Civic Center building and grounds
- Antiquated audio visual technology

Opportunities

- Recent upgrades to facilities
- Explore creative options to obtain an ABC retail permit (County take over property the building sits on, exclusive catering agreement with profit share, etc.)
- Positive tourism and economic impact for the County
- Partnership with local businesses and service providers

Threats

- Competition – new meeting/event centers opening in the County
 - Community College owns the building, limits abilities for exterior improvements, creates parking issues
 - Location – possible storm damage, salt water causes corrosion of equipment
 - Lease agreement between the Community College and the County for operations of the Civic Center will expire in 2024
-

MAJOR GOALS

Increase revenue / Book more events

- Hire a full-time sales manager responsible for sales only

CIVIC CENTER

- Create storage space for rental equipment (white chairs, arbor, benches, etc.) / purchase rental equipment
- Explore creative ways to obtain ABC retail license to sell alcohol

STAFFING / PERSONNEL IMPACTS

Current staffing levels consist of 3.5 full-time positions:

- Director [split half time between Civic Center and Parks and Recreation]
- Manager
- Event Services Supervisor
- Operations assistant
- Part-time staff: one regular office assistant at 999 hours per year; various on-call set-up/maintenance assistants that work when warranted by events.

The dual role of the Director requires office hours be split in half between the two office locations.

Additional staffing needs

A full-time sales manager's main responsibility would be to solicit and book substantial, profitable events into the Civic Center, achieve revenue goals and provide economic impact to Carteret County by bringing out-of-County groups to the Crystal Coast. This person would be responsible for direct sales efforts for new customers in assigned market segments: corporate meetings, association conferences and conventions.

Justification for this position

The Civic Center Manager is often over-extended when it comes to meeting with clients, detailing events, and other duties that require one-on-one attention with customers. In short, the operation is often more than one and a half staff members can handle effectively, which leaves the dedicated direct sales effort falling short. In order to take the Civic Center revenue

CIVIC CENTER

production to the next level, we need someone that can travel on a regular basis, prospecting new leads by cold calling, attending trade shows, conducting site tours, making outside sales calls and presentations to potential clients ...essentially 100% of their time would be selling the County as 'THE PLACE' to hold an event.

The County has completed many upgrades to modernize the Crystal Coast Civic Center. These improvements position the facility as a premier venue for waterfront events on the Crystal Coast. The idea of hiring a dedicated sales person was presented in 2013-14. At that time, it was the desire of the Board to update the facility, improve the condition and then revisit the idea of adding a new position.

SUCCESSION PLANNING

Department Director

The current director has been in the position since 2012 and has over fifteen years before retirement age with no intentions of changing employment.

Department Manager

The current department manager has been with the County since 2003, promoted from Administrative Assistant to Manager in 2012. The current manager has at least ten years before retirement and has no plan for changing employment. This employee brings an extensive amount of knowledge to the position and could easily transition into a higher management role. Should the director position become available, the current manager may be required to obtain a Bachelor's Degree, however it would be recommended that years of experience and job knowledge be taken into consideration in lieu of the degree.

Event Services Supervisor

The event services supervisor was on staff as a part-time set-up assistant from 2012, hired as full-time Supervisor in September 2015. Currently no plans for change of employment and has at least 15 years before being eligible for retirement. Promotion plan consists of cross training with Manager on a regular basis, budget and finance training occurs as well as customer service continued education and equipment operation certification.

Operations Assistant

The operations assistant has been in current position since 2008, has plans to retire within 5-7 years. The current employee is not seeking any type of promotion, is happy at the current level for the remainder of his career. The recruitment process for this position will be technical in nature, requiring someone who is maintenance oriented, willing to work late hours and on weekends. Given the starting salary for this position (\$27K), recruiting a candidate with the extensive knowledge of current employee may be difficult. It is possible an internal County employee could be interested in the position.

BUDGETARY IMPACTS

Hiring a full-time sales manager in the next one to two years would require a salary of approximately \$30,000 plus benefits. However, revenue would increase due to the focused efforts on increasing sales. Adding this position at would benefit the County by increased traffic in local businesses, increase occupancy tax as well as increased sales tax revenue.

CIVIC CENTER

Large maintenance and capital improvement items listed below would add significant budgetary commitments but expenses would be spread out over the next 5 to 7+ years.

Crystal Coast Civic Center 5-7 Year Plan		Budgetary impact
1-2 years	Hire full time sales manager	30,000+ benefits
	Paint interior walls	20,000
	Increase awareness and continue to improve consumer tradeshow	
2-3 years	Create storage space for rental equipment	5,000
	Upgrade AV technology – new sound system, automatic ceiling screens & projectors, sound system upstairs	20,000
	Replace lobby interior doors	6,000
3-4 years	Improve building exterior and grounds	
	*landscaping, outdoor furniture, patio aesthetics	20,000
	*Repair patio concrete, enhance wedding area with coating and design	20,000
	*Install shade structure on patio	
4-5 years	Repair/replace kitchen floor	10,000
	Replace windows on cat walk	15,000
5-7 years	Obtain ABC license to sell alcohol – license \$3,000 + staff/inventory/insurance??	
	Replace aged kitchen equipment as it begins to fail	TBD

SUMMATION

The Crystal Coast Civic Center’s main objective is to generate revenue, provide meeting and conference services to county citizens and visitors in a friendly, hospitable manner. We have very seasoned and stable staff with only one employee planning to retire in the next 5 to 7 year timeframe. Although the Civic Center/Parks and Recreation Department has a unique set up with a split department head, the existing staff is adequate to handle the current level of services provided.

In order to grow our business and increase awareness and sales revenue, an additional staff member is needed to focus solely on new group sales. To compete for market share, a consistent sales-oriented staff is vital.

There have been numerous updates and improvements made to the facility over the last five years, making the interior of the Civic Center appearance more contemporary and marketable to potential customers. Owning and maintaining an old building comes with constant issues of failing equipment and needed upgrades. Over the next 5 to 7 years it is feasible to expect kitchen

CIVIC CENTER

equipment to need replacing, antiquated audiovisual technology to be updated and other repairs will be inevitable. With the upswing in the economy, the Crystal Coast is experiencing growth in new home construction as well as commercial facilities, specifically hotels, new conference center and renovated meeting and event space. With new and improved venues entering the market, the Civic Center will strive to remain relevant in the meetings and event industry. We must continue to make improvements to the building, modernize technology and give a much-needed facelift to the exterior of the property.

Increased sales focus and facility improvements will not only benefit the Civic Center but all County entities that provide meetings and event services. All stakeholders are working together to increase tourism revenue for the County as a whole.

PARKS AND RECREATION

PARKS AND RECREATION

2020-2024 Strategic Plan

PARKS AND RECREATION

MISSION

The mission of Carteret County Parks and Recreation is to enhance the quality of life and encourage healthy lifestyles for our citizens and visitors.

The objective of department is to provide a variety of leisure, educational, sports, and recreation programs; maintain and schedule a system of 14 parks and facilities and acquire land for preservation, park development and open space. Develop and enforce policies and procedures for all parks, water/beach/pier accesses, and community centers. Facility management of two community recreation centers (Western Park and Fort Benjamin) including booking group events, collecting rental fees and maintaining the building.

OVERVIEW

This strategic plan will be used as a guide for setting goals and priorities for the future development of the Parks and Recreation Department. In addition, the 2019 adopted Comprehensive Parks and Recreation Master Plan will direct efforts for park projects and land acquisition.

Parks are essential to making Carteret County an attractive place to live, work, and visit. Our parks offer a broad range of outdoor leisure and recreation opportunities and places for residents and visitors to interact with nature and with one another. Parks also provide important economic benefits such as attracting tourists and businesses and help to build a healthy workforce. Utilizing a five to seven-year strategic plan will help guide and develop future programs, evaluate current programs, assess current and future staffing levels, equipment needs, and other programming decisions. In addition to creative and engaging programming, planning for the future of parks is vital to the economy. We will use this plan to continue to improve in areas that require greater focus and build on our strengths. This plan will ensure all staff members, park maintenance department and other key stakeholders are working toward the same goals. The method for developing this plan was through meetings with key personnel; research obtained through community needs surveys as well as facility assessments and trends in the parks and recreation industry.

TIMELINE

All programs and services are evaluated on a regular basis and adjusted based on citizen requests, staff and space availability, seasonal events, etc. Future projections discussed in this plan are based on a 5-7 year timeline and can be adjusted based on internal and external factors.

PROGRAMMATIC OBJECTIVES

Overall outlook for the listed programs and services are expected to continue as stated for the near future. CCPR has very limited space that we “own” so our programs must be tailored around the schedules of those facilities that partner with us. In our youth basketball program for instance - we service over 500 youth players from Cedar Island to Cedar Point (without our own gym). This puts us at the mercy of County schools which already have very tight gym schedules. This sometimes makes it difficult to find adequate space to run the program effectively. With this many participants, we are maxed out based on staff and space availability, which limits the

PARKS AND RECREATION

ability to increase revenue numbers for this program. All indoor sports such as volleyball, Senior Games activities and Special Olympics are also held in partnering facilities. Programs such as the Beach Run Series and adult beach volleyball is held in cooperation with the Town of Atlantic Beach.

Recreation programs are ever changing to adapt to community interest, trends in fitness classes, program space availability, etc. These programs are offered at Fort Benjamin Recreation Center, Western Park Community Center, the program room at Beaufort Square and the Civic Center – all based on availability.

The department is divided into three service areas: Athletics, Recreation, and Facility Management. Staff involvement in areas of operation is as follows:

Athletic Division

Manages and oversees all county sponsored Athletic programs and sports leagues including; youth basketball, youth volleyball, adult kickball, beach run series, adult beach volleyball, adult indoor volleyball, adult and youth tennis and archery. Manage co-sponsored athletic programs.

- **Special Olympics Programs:** Lead agency and staff for state sanctioned NC Special Olympics. Manage 5 athletic programs as well as young athlete program.

Recreation Division

Manages all youth camps, dance classes, daddy/daughter dances, teen programs, monthly dances and summer camp for special needs population, crochet and quilting classes, karate, exercise and fitness classes [senior classes, yoga, Pilates, high intensity, dance fitness classes], summer movie series and family and young children events.

Facility Services: Manages all aspects of building usage, equipment rentals, public recreation, staffing, cleaning, etc. at Fort Benjamin Recreation Center and Western Park Community Center. Also serves as the local coordinator for Carteret County Senior Games; promotes & recruits athletes, secures locations for over 60 events for practice and competition, staffs and supervises all events. Liaison for contracted fitness instructors. Directs all programs for the special needs population.
- **Recreation Program Coordinator**

PARKS AND RECREATION

- Part-time staffing levels are very seasonal in nature and at peak could reach as many as 35+ part-time employees to handle the workload.

In addition to all athletic and recreation programs, the Carteret County park system consists of 14 facilities. All usage is scheduled through the Parks and Recreation Department; all properties are maintained by the Park Maintenance Division of the Public Works Department. A list of facilities is below ~ with a map showing the County distribution of park/recreation properties.

- Longevity and knowledge of staff
- Variety of affordable recreational and athletic programs
- Committed staff and engaged stakeholders with a desire to make a difference and take pride in their work

- Wide spread locations of parks / proximity to a majority of residents

Weaknesses

PARKS AND RECREATION

- Excessive field usage, lack of field space to allow for rest periods and rotation, drainage issues, lots of rain out dates
- No county dog parks
- Lack of multi-sports complex to draw in tourism dollars with athletic tournaments
- Lack of ADA compliant facilities in parks

Opportunities

- Improved marketing outreach to inform the public of program offerings and park amenities
- High childhood and adult obesity rate in Carteret County (higher than state average)
- Active senior citizen population
- Focus on Economic Development using recreation, cultural, and sports as an economic driver
- Increased communications between departments
- Influx of seasonal residents and visitors
- Expected increase in county population – increase in park usage and program participation

Threats

- Aging facilities
 - Expected increase in county population – limited staff and facilities to accommodate growth
 - Increase in school activities threatens the future ability of shared usage of gym facilities
 - State and federal dedicated grant funding for parks and recreation is always at risk
 - Other vital county departments/services quest for increased funding with a limited pool of available funds
-

MAJOR GOALS

The number one need for the department is more land/space for a substantial sports complex; additional athletic fields to accommodate the ever-growing requests for more space.

Improve water access, boat ramps, and parking (development of Stroud property, Harkers Island water access and Straits pier).

Long-term goal – County owned gymnasium and recreation center.

Implement use of technology with a new playground inspection software to be used by playground inspectors and park maintenance technicians in an effort to extend life span of playground equipment and ensure safety across the county.

Increase joint efforts with Park Maintenance Department to maintain facilities to a higher standard providing attractive, safe places for citizens to use and enjoy. Continue to make needed park improvements.

Continue to be creative with recreation and athletic programming and keep citizens engaged. Focus on gaps in location of services, demographics and trends.

PARKS AND RECREATION

Increase promotion of wellness programs and physical activity opportunities – help combat the high obesity rate and health issue in our county. Install outdoor fitness equipment in parks, new trails and other outdoor activities.

STAFFING / PERSONNEL IMPACTS

Current staffing levels consist of 7.5 full-time positions

- Director [split half time between Civic Center and Parks and Recreation]
- Manager
- Facility Manager
- Athletic Supervisor
- Recreation Supervisor
- Program Coordinator
- Western Park Community Center Supervisor
- Senior Administrative Support Specialist

At the current service level, no additional staff needs are expected within the next 5 to 7 years. Should the County embark on a new recreation facility, staffing needs would increase.

SUCCESSION PLANNING

The current staff is a relatively young group with no retirement plans foreseen within the next 5 to 7 years.

Department Director

The current Director has been in the position since 2012 and has over fifteen years before retirement age with no intentions of changing employment.

Department Manager

The current Department Manager has been with the County since 2004, promoted to Manager in 2012. The current manager has over fifteen years before retirement and is not planning a change of employment. Employee would need to acquire a Bachelor's degree before being considered for promotion to higher-level management position. Continued education and professional development is ongoing. Current CDL license.

Recreation Supervisor

The Recreational Supervisor has been in this position since 2010. No immediate plans for retirement but could possibly be within the 5 to 7 year plan. This position would be easily recruited for and possibly a stepping-stone for the current recreation coordinator.

Recreation Coordinator

The Recreational Coordinator was hired in the fall of 2019. This entry-level position averages a turn-over every two years. This high turnover rate can be attributed to the low salary, typical candidates are just out of college and looking to grow their career. With such a stable staff, there is not a lot of opportunity for upward movement in this department. The current coordinator has a Bachelor's degree in Parks and Recreation Management, substantial amount of experience and will be promotable if a higher-level management position opens. An extensive amount of training has been conducted since the start date and will continue over the coming months.

SUMMATION

Carteret County Parks and Recreation is dedicated to providing safe, healthy, accessible and affordable recreational opportunities to serve County residents and visitors. Recreation is an essential community component that contributes to the health, welfare, and quality of life within the county. Parks, recreation programs and sufficient water access also adds to the economic vitality of our community. As the population of Carteret County continues to grow, it is essential for us to recognize the value and importance of creating, maintaining, and enhancing recreation opportunities as well as the upkeep of aging facilities within the county.

The department strives to keep up with trends in the industry, listen to what the citizens want in the way of programs and meet the many needs for athletic programs around the County. We accomplish this goal through providing a variety of programs covering as many interests as possible with a limited staff and sparse program and athletic field space.

The department is currently solid and energetic. Over the next 5 to 7 years, our staffing level should be adequate to continue at the current level of service and there are no plans for retirement in the near future. If new programming space were to become a reality (additional park land and a recreation center), staff needs would increase.

A lot of national, state and local focus is placed on increasing physical activity among youth and adults. As usage increases in parks, so does wear and tear. We must continue to upgrade park amenities and improve maintenance of outdoor recreation space. Investing in new park amenities such as trails, outdoor exercise equipment, disc golf courses, dog parks and water

PARKS AND RECREATION

access locations – will keep County citizens and visitors engaged and excited to return to Carteret County Parks and Recreation facilities.

Our mission is to enhance the quality of life for older adults in Carteret County by providing services, programs, and activities that will maintain or improve level of independence, encourage personal growth and development, promote community participation, and address current and future needs. Special emphasis is placed on serving the socially and economically disadvantaged, low income, minorities, and the frail elderly.

Carteret County Aging Services currently consists of seven full-time employees and five part-time employees. As a small department, there will be a need for additional staff in the next three to five years. As the number of older adults increase, so will our participation. Extending the operating hours of the center and increasing our facility rentals will increase the need for at least an additional part-time staff member.

We currently have one retirement on the horizon. Professional development will be important to keep current employees engaged and motivated in their current roles. As of summer 2019, three out of the seven full-time employees will have less than 12 months of Carteret County Government experience. Carteret County based trainings will be imperative. Securing local county governmental training opportunities will be essential. Trainings will include but are not limited to the North Carolina Association on Aging Conference, North Carolina Department of Aging and Adult Services trainings, Senior Health Insurance Information Program trainings and UNC School of Government courses.

SUCCESSION PLANNING

The Director, Assistant Director and Senior Administrative Assistant all work very closely together and are kept up to date on each position's duties. Should one of these positions become available, the other two should be able to either temporarily fill-in or step into the new position. The remaining four full-time employees are all cross-trained and able to fill in each other's absence. Since we are such a small department, it is imperative that we work together as a team and are able to cover multiple roles.

BUDGETARY IMPACTS

Projecting growth and extension of hours, the biggest impact to our budget would be to hire an additional part-time employee. This employee would work approximately 16 hours per week with an average expense of \$10,000 per year. Additionally, if our Home & Community Care Block Grant funding was to decrease or required to be re-allocated and decrease Senior Center Operations, we would have to decide if the county would cover the lack of funds or if we would

AGING SERVICES

have a reduction in services. With the exception of sequestration in 2013, reduction of funds has not been an issue for the past five or so years and we are hopeful that it will remain that way.

SUMMATION

With the increase in number of older adults and baby boomers, this proves to be an exciting time for our department. Baby boomers constitute more than two-thirds of the 50+ population. With the rise in population, we will also face many challenges. Baby boomers, who have different interests as compared to our older generation, will require slightly different activities than our older population. With an increasing amount of seniors retiring later in life, we will need to adjust our operating hours and programs accordingly. It is our hope that we will have something to offer each and every older adult in Carteret County.

RAPE CRISIS PROGRAM

2020-2024 Strategic Plan

RAPE CRISIS PROGRAM

MISSION

The Mission of the Carteret County Rape Crisis Program is to be committed to healing and empowering survivors of sexual victimization; challenging people and institutions to be more responsive and responsible to all survivors; and eliminating sexual assault and abuse from our community and our society.

OVERVIEW

The importance of this strategic plan for the Rape Crisis Department is to provide guidance to program planners for future growth or non-growth in this area. As stated in our mission statement our primary purpose is to eliminate sexual assault and abuse from our community and our society. Within the next five years the Rape Crisis Program will undoubtedly see an increase in people seeking services, as it is now easier for those who have been assaulted to report and be believed. Crisis intervention may decrease; however, as males and females find the courage to reveal long-term secrets about their abuse, therapeutic interventions will undoubtedly increase. It will be imperative to have trained qualified staff to meet the needs of emerging clients as they reveal lifelong abuse.

The importance of competitive salaries will continue to be an issue as salaries are substantially less than in other fields of advocacy and therapy. Unfortunately, as with other social issues, sexual assault is dependent upon the urgency of the issues with Federal, State and local funding. The availability of grants and philanthropic giving is still the underlying sources of funding for sexual assault programs.

The Carteret County Rape Crisis program relies on grant funding to support or partially support four of its five positions (two full-time advocates, one full-time and one part-time therapist).

County funding supports the Director's position. The County also supplies other amenities such as longevity, vacation and sick leave for all qualified positions.

The Rape Crisis Department is a member of the North Carolina Coalition for Sexual Assault (NCCASA), this membership keeps us abreast of emerging and longtime issues within the sexual assault movement. Their advocacy and our involvement gives us an edge on Federal and State budget increases and/or decreases as it relates to this issue. Prisons, Jails, college campus education, By-Stander, Human Trafficking, LBGTQ issues, and community education are just a few of their initiatives. Continuing to be a part of this organization permits us to stay abreast of emerging issues and funding opportunities. Annual membership dues of \$300.00.

TIMELINE

Due to the nature of the type of work that the Rape Crisis Program performs, a budgetary time line is hard to narrow down.

In the Next Year: We hope to renew our grant-funding source and continue to obtain county funding for benefits and director's salary.

RAPE CRISIS PROGRAM

Two Years: We look forward to having an experienced staff, thereby, allowing programmatic enhancements and new ideas easier to implement. Looking and apply for grants to financially continue the program is an ongoing endeavor.

Three Years: Staff will be consistent and program changes will be easier to develop and implement. Increased services to Hispanic, LGBTQ, PREA, Human Trafficking, School presence; and other services will increase, as funding is available.

Four Years: Should County have a county complex, we hope to have a location that is inconspicuous with a name change that does not include "Rape". Continued grant applications for funding

Five Years: Continued grant funding to sustain the program with the aid of county funds. Grow or maintain program as funding sources dictate.

PROGRAMMATIC OBJECTIVES

Currently the Rape Crisis Program provides following services:

- Victim Advocates: Provide interpretation services as well as, Crisis intervention, advocacy during investigation and legal procedures, counseling, transportation, volunteer training, financial claims through NCVC, confidentially concealment of identity
- Prevention, planning and presenting educational programs, and awareness programs for children and adults.
- Licensed Therapist: Provide therapy for victims and their families, as well as any of the combination of services listed above.
- Volunteers: provide office services, carry crisis phone, and assist with community presentations, workshops, and/or health fairs.

We Endeavor to:

- Provide Advance Training for therapist and advocate
 - Connect therapist with higher education facilities for continued intern placement
 - Develop PSA's that are inclusive
 - Include more for males
 - Develop a certificate training program for advocates
-

SWOT ANALYSIS

Internal Strengths

- Longevity of the program (began in 1986), good rapport with other programs locally and across the state, good leadership and professional staff, ongoing SART teams, both county and with military.

Weaknesses

- Program growth limited by county constraints unable to apply for some grants because of county designation. Staff needs clerical support.

RAPE CRISIS PROGRAM

Opportunities

- Internal Strengths - Exposure to a variety of situations and cultures increases knowledge and skills.
- Internal Weaknesses – little to no opportunity for advancement.

Internal Threats

- Loss of experienced personnel, keeping staff morale high, and the struggle to replace qualified staff when there is an opening. County salary levels are far below the market rate for licensed therapist.
-

MAJOR GOALS

The Major goals for this program are to educate the community about the effects of sexual assault and to provide services, free of charge, to citizens and their families.

Increase our ability to reach and serve those affected by sexual assault.

SUCCESSION PLANNING

Currently there are four full-time positions in Rape Crisis, Department Director, Therapists (2) and Advocates (2). In the absence of the department head, the senior therapist or full-time therapist will assume the lead role in the department. The director will continually train the senior therapist in handling grant requirements, credit card, reimbursements and personnel matters. In the absence of a full-time therapist, the senior most individual with at least a four-year degree will assume departmental responsibilities. In the event of no qualified staff in the department, the County Manager or his designee will oversee the program.

BUDGETARY IMPACTS

Currently, the Rape Crisis Center has an operating cost of ~250,000 of which ~43% are obtained through grants. One victim advocate is funded by the Council for Women, the two therapist (one full-time one part-time), and other operating expenses are funded by the Governor's Crime Commission. Should these grants cease, our program would not be able to continue without full funding from the County. Donations from churches and/or private groups account for less than 1% of the program costs. Because we are a governmental agency, we cannot fundraise to supplement any revenue losses.

SUMMATION

We hold to our mission to provide free and confidential services to all victims of sexual assault, and we further endeavor to educate our citizens about its impact and ramifications. Looking for available grant funds, new treatment methods, and community partners to help traumatized victims and their families are the cornerstones upon which we operate. Someday, we hope, there will be no need for this program; however, until that day, we are committed to the fight for however long it takes.

VETERANS SERVICES

VETERANS SERVICES

2020-2024 Strategic Plan

VETERANS SERVICES

MISSION

The mission of Veterans Services is to assist county Veterans and their families in understanding and obtaining the VA benefits they have earned. This involves counseling and interviewing Veterans and their dependents about various regulations, benefits, and assisting them throughout the application process. The Veterans Services staff assists in completing and submitting claims for benefits, enrolling Veterans in the healthcare system, and applying for ancillary benefits to which they are entitled. The staff cooperates and works in coordination with other government entities at the federal, state, and local level to serve our Veterans. The department strives to keep county Veterans informed of opportunities and changes in VA regulations and policies. The Veterans Services department's mission is to serve the Veterans and their families with respect and dignity that they have earned.

OVERVIEW

The Veterans Services department is under the umbrella of the North Carolina Division of Military and Veterans Affairs (NC DMVA) and is financed by the County of Carteret. The department takes direction from the Carteret County Board of Commissioners and the County Manager. The department aims to help Veterans and their families with VA benefits, and also assists them with their Department of Defense benefits, SBP, direct deposit, tax info and last check if Veteran is retired.

More and more young Veterans from Iraq and Afghanistan are utilizing Veterans Services, and these types of Veterans require more services from the department. Specifically, it is necessary to check to see if their Department of Defense disabilities are correct, and if they are not, make corrections to their records. The Veterans Services staff ensures that Veterans are covered by health care of some kind.

There will always new benefits that are approved by the VA. Staff members attend a couple of County trainings a year. The department provides services to officers belonging to the NC County Veterans Service Officers Organizations. We also must attend a couple of NC State Military & Veterans Affairs Meetings a year. This information is passed on to the staff.

TIMELINE

A target goal would be five years.

PROGRAMMATIC OBJECTIVES

Veterans Services work is complex and exacting because of the numerous state and federal laws which apply. The County VS Office is in the business of filing claims. These statutes cover various benefits to include:

- Compensation, Pension, DIC (Widows/Widower benefits), Insurance, Aid and Attendance, Health Care, Burial, Home Loan Guaranty, Disagreements, Appeals, Education Benefits, and Debt Reduction for Overpayments by the VA. These services are provided by 2 Service Officers, who meet with the Veterans or the family members. One claim can take up to one hour to process, or longer. Patience

VETERANS SERVICES

is definitely needed as member has lost a loved one. Service Officers talk with each member getting information for the claim.

- MVRA Military/Veteran's Registration Plate Appreciation: Veterans are entitled to one free disabled tag for their vehicle.
- NCDVA-9: This form exempts \$45,000 if the Veteran owns property in their county. (Also 100% P & T)
- Hunting & Fishing licenses are for Veterans who are 50% service connected.

All these services and more are provided to the Veterans Services Officer in our county. We have implemented a letter to the 100% P & T Veterans to explain all the benefits their families are entitled to.

Other services provided:

- Van Transportation System. This service is managed by an assigned Office Assistant for transportation for our Veterans who need transportation to the VA Medical Hospital in Durham and the Health Care Center in Greenville, NC.
- ROMEO Luncheons (WWII gatherings which now include Korean and Vietnam Era Veterans. This service is provided by our Office and managed by an assigned Office Assistant.
- Carteret County Memorial Day Service in Beaufort. Veterans Coalition of the Crystal Coast which is a group of volunteers including office personnel who coordinate all activities to honor the memories of our Veterans.
- Carteret County Veterans Day Parade in Morehead City. Crystal Coast Veterans Coalition presents a day to honor all of our Veterans in the County. The County Veterans Services department will include all its staff members to assist with whatever is needed.
- PTSD Group. Every Thursday, 20 to 25 Veterans meets at the Veterans Services office in the conference area. A certified counselor comes from the Greenville VA office to meet with the Veterans, first individually then to the group session.
- Vet Center. The current director wants to include counseling for family members of PTSD Veterans and for Sexual Trauma Veterans also.

SWOT ANALYSIS

- **Strengths**
 - Internal: Serving one Veteran (or Veteran's family member) at a time and to treat that Veteran or Veteran's family member with the respect

VETERANS SERVICES

and dignity that he/she has earned. Our staff strive to file a fully developed claim.

- External: We maintain a can do attitude to help the Veteran.
- **Opportunities**
 - Internal: To serve all Veterans who walk through our doors.
 - External: To participate in all community activities as the Veterans Stand Down, Memorial Day Services, Veterans Day Parade, Senior Life Expo Presentations, and Veterans Coalition of the Crystal Coast. The office has started sending out sympathy cards to family members so they know to come in and apply for benefits. We also sponsored an adult for Christmas. We want to help in our community.
- **Threats**
 - Internal: Sometimes the County Veterans Services office is mistaken for the VA Clinic that is located on Highway 70 and Veterans call or come by and vent their anger if they are unhappy with the clinic. When we explain who we are and what we do, they generally apologize.
 - External: We did have the police call the Director some time back when a person had called in a threat to our office saying that he was with ISIS and was going to blow up the building. We had to evacuate the building. It was later found that it was a man on a CB radio.

MAJOR GOALS

- Goal: Death notification for Veterans and their families out of the newspaper. Send a sympathy card to family to notify them of possible benefits.

Measurement:

1. Stop overpayment for the survivor
2. Save the VA money from checks that are cashed illegally or money taken out of the bank accounts
3. Possible benefits, grave marker, Presidential Memorial Certificate, DIC, or death pension (Death & Indemnity compensation)

- Goal: Attend classes offered by State and County Veterans organizations to maintain certifications and keep abreast of changes for Veterans and their families.

Measurement: For Veteran Services Officers more knowledgeable about County & Veterans operations for the betterment of self and best possible service to the County and Veterans.

- Goal: Maintain accuracy, attention to detail, when completing a claim.

Measurement: Have claims adjusted quicker to get money in Veterans pockets.

- Goal: Help homeless Veterans.

VETERANS SERVICES

Measurement: Get placed in a home, working, start receiving medical benefits, and file a claim.

- Goal: Scan all files in our computer.

Measurement: To have all files scanned. To make more room in office. Prevent HIPPA violations. This will be a year-long process.

- Goal: Utilize Vet Center. Start a class for spouses of Veterans with PTSD.

Measurement: Help them understand what their spouses are going through.

- Goal: Utilize Vet Center to start a class for sexual trauma veterans.

Measurement: Help those Veterans start living their lives and being able to cope with what has happened to them.

- Goal: All staff to start using SEP (Stakeholders Electronic Portal).

Measurement: To upload claims directly into the VA system. Claims will be adjudicated quicker.

- Goal: Provide transportation to the VA Medical Center in Durham and to the Health Care Clinic in Greenville.

Measurement: Make sure Veterans keep their appointments for health care.

STAFFING / PERSONNEL IMPACTS

At this time, there are three (3) Veteran Service Officers, the Director and two (2) service officers and additionally two (2) Administrative Assistants and one (1) Senior Administrative Assistant. No new personnel requested at this time.

SUCCESSION PLANNING

Should the present Director retire, this position would probably be an external hiring and not an internal promotion. At this time our staff is trained and ready to work.

BUDGETARY IMPACTS

Veterans Services is unique in that it is in the business of filing claims. It should not be adding or reducing staff any time in the near future.

VETERANS SERVICES

SUMMATION

In summary, the purpose of Veterans Services is to assist Veterans and their family in understanding and obtaining the VA benefits they have earned. Our staff counsels and interviews the veterans and their dependents, assisting them through the process. Veterans Services works in coordination with the Department of Defense, the VA Health Care System, Education program, insurance, burial benefits, markers for grave sites, Presidential Memorial Program, Vocational Rehabilitation/Employment, Debt Management, the big benefit is compensation and pension. We also assist widows or widowers for the Death Indemnity Claim (DIC) or pension for war time. We are active in the community with CCC; Work First, Homeless Program. Champ VA is another program we administer.

The Veterans Services department assists in re-imbusement of medical expenses for pension Veterans and spouses as well as assists Veterans with HISA Grants; Special Adoptive Housing and vehicles. In addition, the department is heavily involved with the Crystal Coast Veterans Coalition on the Veterans Parade for Veterans Day and the Memorial Day Program.

Veterans Services staff are working to convert all file to electronics. I plan to have this conversion done in 2 years. We will be able to get rid of VIMS System and save the county money.

Our staff members will assist all Veterans and family members with a caring attitude by listening to them and answering their questions. Our staff files claims, and enrolls Veterans in health care. When the time comes, the Veterans Services staff takes care of the family members with assisting them with burial benefits. The staff is here to take care of them from the beginning to the end.
