Carteret County Permit Offices Opening

Carteret County, NC – In order to assist Carteret County citizens to begin the rebuilding process, the Western Carteret Planning and Development Office will resume normal business hours at 8am Wednesday, September 19th, 2018.

On Thursday, September 20th, 2018 the Beaufort Planning and Development Office will resume normal business hours at 8am.

Carteret County citizens are reminded that permits are still required for all work that would normally require a permit during non-emergency conditions.

Because of the extreme devastation experienced by our area, Carteret County will waive permit fees for storm damage repairs for a period following this event.
