“Over the past few weeks, the demand for testing has dramatically increased and we see value in adding additional sites to increase testing capacity in Carteret County,” said Stephanie Cannon, Carteret County Health Director. “We hope increased testing will allow us to have a more accurate picture of what is happening in our community and help us in our fight to stop the spread of this virus.”

Due to the demand for this service, we anticipate there could be significant wait times associated with these drive-thru community-based testing sites. Please be patient. If you are experiencing a medical emergency, you are urged to call your doctor or the Emergency Department to seek immediate care and instructions.
